

Burdekin Early learning Centre.

Once again this government leaves everything to the last minute in the hope that the public will just allow them to rush through this bill. Be better prepared and go through the proper consultancy period so that everyone has time to give good feedback. Then please take the time to read the feedback and make an informed decision for the improvement of childcare wages and not a political one. Our childcare workers are not pawns in a political game. Please don't be dictated to by a minority greens party that are too big for their boots and only serve the minority and not all the Australian people.

Andrew Evetts
Burdekin Christian College.
