Subject: Changes to voting paper
Date: Wednesday, 11 December 2013 6:16:55 PM

I would like to submit the following proposal for its consideration: Change to the voting paper to the Upper House

How to change the form:

Add another line with boxes for each group like the ones now where you now tick only the Party you prefer, but by adding this extra line it allows the voter to takes charge and distribute their votes the way they want. Numbering each box, instead of below the line where you have to fill all boxes from 1 to how many candidates there are for a Senate position in each State.

Reason: Gives total control to the voter on how their vote is distributed.

Transparency: The voter takes away the ability of dubious deals done by Political parties for their own benefit, which may not be in line with the voters wishes.

Could you please keep me informed.

Regards
Maureen Fay
