**International Treaty**

Dear Sir/Madam

Regarding the news about the International Treaty, we find this most disturbing, that we as a country, can be prepared to give away to others, the right to meddle in the affairs of this nation.

We are not able to accept this having heard many well known and learned speakers, talk on this subject.

Please accept this as our strongest protest against such a move, which will be detrimental to the welfare of this country.

Yours truly,

Ken & Eve Drinkald
