

Hi,

We are eligible for the increase but will have nothing at all to do with it!!!!!!

Why?????? Firstly it is unfair to give to some and not to others....

It needs to be that all educators are rewarded equally for all the hard work and effort they put in....

It will divide the sector and put more stress on an industry that needs support not added pressure.

To have members of different Child Care groups as members of the board is bias and unjust.

None of my staff are interested in us even applying as they feel \$1.00 for all is a fair way of doing things- not \$3.00 for some, why even do that?????????? Paying all these extra people money and wasting my time and money to apply for something that is not going to last anyway and frankly- it is not very Australian!!!!!!!!!!!!

With Thanks
