Submission of child support.  
Please find attached reasons Why government intervention is reducing my chances to spend more time with my daughter and costing me more in support costs. That is discriminating against me and my daughter. I have been told it coasts \$30,000 dollars to fight for custody win or loose I would prefer to see my daughter receive this amount.

My daughter goes to a Catholic school and is well off. she has financial investments and gets all the health cover supplied by private health cover paid by me, this also covers her mother this was my choice.

I see my daughter on every second weekend and public holidays. Where permitted by her mother. I also arrange to take all my holidays at a time to suit her mothers work arrangements i.e. School holidays because it would cost her money and time off work.

I ring my daughter every day except her mothers weekend and when not permitted.

This is an agreement by us both verbally and no court intervention required.

All assets and money was split 60% to my daughters mother and 40% to me to assist my daughter.

This amount [REDACTED] mother received allowed her to purchase a three bed room house and set them up very comfortable. no legal intervention.

this has left me with a small amount of cash not enough to build any sort of future to support [REDACTED] in the future even if I wanted to.

[REDACTED] mother has full support of CSA and requires. Me to pay on an assessment basis. based on what I earn and Interest on the small amount I have left.

[REDACTED] mother is now requesting more and dictates any visiting rights for me.

All cases are different and my case does not meet any requirements to visit more or even be financial enough to improve this time together.

[REDACTED] was born thanks to IVF and it was not my choice to leave her with out a Mum and Dad.

It is not my intention to take her from her Mum.

[REDACTED] is the most important thing to me she is five and I am sure not understanding why this is happening to her.

I am sure that this will not meet your submission requirement. I do hope that you can find a solution to the increasing result of child support and family break downs.
