

JOINT STANDING COMMITTEE ON
 NORTHERN AUSTRALIA
 PARLIAMENT HOUSE
 CANBERRA ACT 2600

MY SUBMISSION ON DEVELOPING THE
 NORTH OF AUSTRALIA. I WOULD EMPHASIZE
 THAT ALL POLLITIANS BE VERY CAREFUL
 ON WHAT YOU DECIDE AS IF YOU EVER
 DEVELOP THE NORTH YOU WILL HAVE A
 WORSE PROBLEM THAN THE SOUTH. THE
 GREAT MOUNTAIN REACTOR HAS BEEN GROWING
 ON THIS CONTINENT FOR A WHILE TRYING
 TO WARN US MORE HUMANELY TO BE CAREFUL.
 SOME OF THE POINTS I WILL POINT OUT:

WATER / WHEN I HAVE WONDERED THROUGH THE
 NORTH IN MY YOUNGER DAYS, I NOTICED
 MANY CHANGES AND I AM SURE MANY
 WISE PEOPLE WOULD NOTICE EVEN TO
 THIS DAY HOW QUICK THE LAND CHANGES
 FROM WET TO DRY. OVER DAMING OF
 RIVER - CREEK SYSTEMS AFFECTS MUCH
 OF THE COUNTRY AND HAS STAYED MANY
 A TIME THROUGH THE AGES IF YOU MUCK

2/6

WITH THE NATURAL WORLD IT WILL COME
BACK AND BIT YOU SO YOU PEOPLE
WHO LOOK TO DEVELOP THE NORTH LOOK
AT THE SOUTH HOW YOU HAVE CREATED
MANY PROBLEMS WITH WATER NOT TOO
LOW ALSO MANY CITIES AND PROVINCIAL
TOWNS WHICH STRUGGLING TO SURVIVE I
CAN TALK ALL DAY BUT WANT ON
WATER I THINK A LOT MORE COMMUNISM
SHOULD BE USED.

LAND 2 CLEARING OF NATURAL BUSH WHICH
HELPS RAIN FALL IS SILLY SO YOU
NEED TO FARM AREAS WHERE YOU DO NOT
DESTROY THE BUSH AS THE AUSTRALIAN BUSH
IS SPECIALLY DESIGN FOR THIS CLIMATE
AND HAS MANY BUSH FOODS THAT
ARE GOOD. YOU NEED TO CONSULT WITH
INDIGENOUS FIRST NATION PEOPLES
MORE ON LAND AND WHAT CAN - CAN
NOT BE GROWN DO NOT KEEP FLATTING
THE BUSH THINKING YOU ARE THE MASTERS
AS CAN BEEN SEEN BY THE SOUTH YOU
CLEARED TO MUCK BUSH SO NOW FIRES
START FASTER AND QUICKER & FLOODS
ARE MORE PREVALENT. WHERE YOU HAVE
NATURAL BUSH ON LAND WITH MOTTEN
FERTILIT IT ALL WORKS WELL.

MINING OVER MINING CAN BE VERY
DANGEROUS TO BOTH WATER - LAND
IF YOU GOT AUTHORITIES DON'T KEEP

THEN IN CHECK THE NATION CAN
 DO TOO MUCH MINING WE SHOULD
 BE MORE SENSIBLE AS THERE MORE
 MINES THAT ARE OPENING UP
 THE MORE CHANCES OF TYPING OUR
 NATURAL WATER ABOVE & BELOW
 GROUND INTO TO TOXIC WATER NO GOOD
 FOR ANY ONE, ALSO THE LAND AS
 MUCH OF OUR LAND IS VERY POROUS
 AND CONTAMINATION CAN TRAVEL VERY
 QUICK.

PROBLEM 4 / OVER POPULATION IN A LOT OF
 AREAS IN AUSTRALIA HAS CAUSED MANY
 PROBLEMS AS WITHIN CITIES AND MANY
 PROVINCIAL TOWNS DOWN SOUTH THERE BEEN
 BUILT ON PRIME FARMING LAND WHICH
 WAS A BAD DECISION BY THE DEVELOPERS
 OF THE TIME AND EVEN NOW. IN THE
 NORTH IT HAS STARTED ALREADY. SO
 PEOPLE WITH THESE IDEAS OF
 DEVELOPING NEED MAKE SURE THAT
 OVER POPULATING DOES NOT OCCUR AS
 THE NORTH WILL DESTROY THEIR COUNTRY
 JUNGLES. ESPECIALLY IN NORTH AS THE
 WEATHER WILL BE MORE VIOLENT.
 IN THE

FOOD 5 / OUR POLITICIANS NEED TO STOP
 THIS NOTION THAT WE ARE THE FOOD
 BOWL OF THE WORLD WE ARE NOT AS
 OUR WEATHER CHANGES MORE AND MORE

WE NEED TO CHANGE THE WAY WE GROW
 FOOD A LOT BETTER AS I HAVE INDICATED
 IN PREVIOUS PAGES IF WATER & LAND
 IS DEGRADED BADLY FOOD WONT SURVIVE.
 WE NEED TO CONSULT WITH OUR ^{1st} FIRST
 NATION PRODUCERS AND GROW FOOD THAT
 IS COMPATIBLE TO AREAS THAT SUIT
 IT. WHAT WE CAN DO IS BECOME
 MORE PROFICIENT AT SO AS WE CAN FEED
 OUR NATION THROUGHOUT OUR PRACTICE ON
 TO OTHER NATIONS. ONE OF OUR WORST
 TIMES IN THE PAST AND NOW IS WE TEND
 TO OVER STOCK WHEN IT IS WET AND WHEN
 IT IS DRY OR DROUGHT WE WASTE SO
 MUCH IN DEATHS. WE NEED TO SMARTEEN
 OUR WAYS BETTER TO STOP WASTE. ALSO
 WE COULD FARM A LOT OF THE FRESH
 ANIMALS AND SEND THEM BACK TO WHERE
 THEY CAME AS I HAVE SAID WE HAVE
 OR WE HAD MANY WONDERFUL BUSY FOODS
 WHICH EUROPEANS HAVE NOT ADOPTED THEY
 HAVE TRIED THEY NEED TO BE AT PAR
 WITH THE ^{1st} FIRST NATION PRODUCERS AND
 TRY TO BRING BACK MANY OF THEM
 AND NOT BRING TOO MUCH FOREIGN THINGS
 IN. GROW AND FISH OUR NATURAL FOODS
 IN THE MOST ^{1st} SUSTAINABLE.

Employ 6 There are many things to do
 mens. In employments some have been started.
 BUT SOME NEED TO BE DONE MORE
 OR START UTILIZING THE GREAT MOTHER

AND FURTHER SKY BETTER THAN WE ARE
 DOING I WANT TO GO INTO THIS MUCH I THINK
 COMMONSENSES NEEDED. SOME THINGS ARE
 MORE SOLAR POWER, WIND, WATER INSTEAD
 OF FOSSIL FUELS, RECYCLING EVERYTHING WE
 HUMANS MAKE IF WE DO THIS IN THE
 MONTH WE WILL SAVE WATER & CREATE
 MORE EMPLOYMENT FOR OUR FIRST NATION
 PEOPLE* AND OTHERS. ONE BIG THING
 IS WE NEED MORE A GOOD DEFENSE IN
 THE MONTH AS THE WORLD GROWS MORE
 VOLUNTARY THERE WILL BE MANY OTHER TYPES
 OF EMPLOYMENT THE NEEDS WILL BE ON WHAT
 IS DECIDED IN THE DEVELOPMENT OF MONTH.

INFRA I WANT TALK MUCH BUT THINGS
 STRUCTURE WE SHOULD LOOK AT IS GOOD ROADS
 TO BUSY COMMUNITIES, BUILDING AND
 AIRWAYS. ALL THESE SHOULD BE SUSTAINABLE
 IF GOOD INFRASTRUCTURE IS DOWN WILL
 CREATE EMPLOYMENT AS YOU HAVE TO
 MAINTAIN THESE.

Economics 5/8 THIS IS MY LAST BIT I COULD TALK
 A LOT ON MANY ISSUES I HOPE SOME
 OF THESE ARE LOOKED AT. ECONOMICS.
 I WANT TO SAY YOU* POLITICAL WHO WE
 EMPLOY* YOU HAVE TO ADOPT SENSIBLE
 APPROACHES NOT ONE OF *GRIND*
 THIS IS A HARSH AND FRAGILE
 LAND THE GREAT MOTION A FEATHER
 SKY HAVE BEEN TRYING TO WASH

6/6

You for the AND BIT CHANGE
BUT YOU HAVE NOT LISTEN NOW
IS YOUR TIME TO WAKE UP. AND
DO WHAT IS RIGHT AND WHAT WE
KNOW YOU TO DO.

TO HAVE A GOOD ECONOMY YOU
HAVE TO FOLLOW THE BASIC PRINCIPLES

- 1/ WATER IS No 1.
- 2/ LAND No 2
- 3/ HEALTH " 3
- 4/ EDUCATION " 4
- 5/ FOOD " 5
- 6/ DIVERSITY " 6

KNOWING THE
COMES AFTER WITH OUT THE "TOP TWO"
YOU WILL HAVE NO ECONOMICS BECAUSE
IF THEY ARE DESTROYED NONE OF THE
OTHERS WILL WORK. SO YOU NEED TO
CHANGE YOUR TACT AND PUT THEM
DOWN THE WRONG SUSTAINABILITY IS
THE MAIN THING FOR DEVELOPING NATION.
AND CONSULTING MORE WITH
INDIGENOUS FIRST NATION PEOPLE.

~

ALWAYS. UNDER I TURN

I'S SORRY ABOUT WRITING BUT AM
ARTISTIC OLD FASHION NO TECHNOLOGY
