RE: Joint Standing Committee on Treaties

Dear Sir,

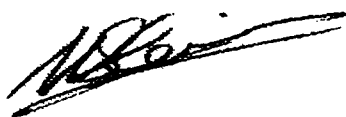

As a private citizen of Australia, it is my wish to be recorded as very strongly objecting to, any person carrying out any consideration of any overseas proposal or future proposals, that will be binding on citizens' of Australia.

Also I find it totally reprehensible that servants of the people of this country dare to consider allowing an International Criminal Court to over ride the authority of our own institutions. Such a consideration by all persons involved will have committed an act of treachery against the Australian people. And for that they will be held fully accountable.

Therefore, under the above consideration, my submission is:

**Australia should not be party to the Statute of International Criminal Code.**

Submission by,

William Blain  
Australian natural citizen  
16 Fletcher Way,  
MANDURAH... WA... 6210.
