Dear Sir,

I am wanting to know why the frequency
88.7FM was taken from Central Victorian Gospel Radio, Inc.
Why has 88.7FM been left silent since
1st April, 2000? Why have the thousands of listeners
been deprived of programmes which helped them, and they
greatly enjoyed?

CVGR Inc. is a truly local community station.
- is a volunteer operated radio station.
- is voluntarily supported for 16 years.
- is essential to the spiritual & moral

tone of the area.

- was supplying good sound spiritual,
Biblical teaching to the country district.

- brought christian fellowship to my home.
Rising petrol costs now deter me from
travelling distances to hear like good teaching.

There are few votes to matter in
country areas, but surely there's no gain by discriminating
against us.

You must all know that God will hold
you accountable for your decisions regarding His people of
CVGR Inc. Praying for you all.

Sincerely,
B.G. Hayes
