Dear Sir/Madam,

Hil I am writing to you, about my opinion about fathers should get to spend more time with the children. As I know a father in this type of situation, that was going through "Family Court" matter, in trying to get some visitation to see his daughter. And for a number of times the mother has breached the order.

It is very heart breaking to see this guy, in the state he's in. There is not a day goes by when he says to me that he wishes that he can see his daughter more often and to even have her stay with him just on the weekends.

That is just a little message to inform you that I feel that fathers should spend more time with their children no matter what the case maybe be, as children need a father as well as a mother. I sure hope that this will give you something to go on. If it's not what you are looking for please let me know.
