Dear Jackie

I urge you to continue to push for reforms to the Family Court and Family Law. It just breaks your heart.

There are NO AVOs out against me. Neither are there any sexual allegations but I can't see my adopted children. I have NOT seen them for six years. Neither has my mother or any of my relatives. For every woman that "wins" there are lots & lots of other women and men that loose. I have never had one phone call, one letter in all these long six years. Women can brainwash <sup>and</sup> alienate the children against

their fathers. My eighty year old mother would love to see her children because she knows she doesn't have many years left. Please encourage PM Howard to push for these reforms. They are so sorely needed. The Politically Correct brigade have sown the wind and now have reaped the hurricane. Please push for more and more change in this area. Guys have been shafted by the legal and govt system for such a long time " Keep going.

Yours faithfully

Maybe one day, I'll see my kids. I have no idea where my children live or who they are with.
