Submission No.195.....

Dear Sir,

Re Consideration of Ratification of
Treaty to create an International Criminal Court

I have recently heard of your inquiry into
this matter matter. I had thought that once
this country discarded the right of appeal to
the British Privy Council that we would be
in control of our own affairs. To defer to the
Authority of an International Court the members of
which would not be concerned about Australia's
best interest would in my opinion be ludicrous.

Please note my strong opposition to the
ratification of this treaty.
Yours faithfully
Leo Wignanus
