Submission to the Joint Standing Committee on Treaties

Submission No. 1

32 Marlborough Place
St Ives NSW 2075

Dear Sir/Madam

I am Mrs Ordinary Citizen, raising a family, working as a Home Care Field Staff, and desperately interested in furthering any cause dealing with "Man - Humanity to Man". These causes and to view the whole earth, and not just man, as permeated by SPIRIT.

The WTO definitely does not fall in this category of causes which furthers Brotherhood. I have thankfully been awakened for a few years now, to the threat of Globalized Capitalism, for us all. The WTO is real and true purpose is to facilitate GLOBAL PILLAGE. Any decent Australian should not have anything to do with a movement whose sole aim to preserve the benefits of a few ever growing multi national corporations.

There are only 4 Australian Companies in the World's top 500, most of which reside in USE and Japan.

WTO stands for institutionalized domination. Look at what happened in Tasmania with them being forced to import live diseased salmon when their country fish is disease free. Look at the US Company suing Canadian Government for not allowing them to sell a product (in Canada) which includes a component banned in Canada on environmental grounds. (USA, Mexico and Canada have free trade agreement).

The latest push by WTO is for the privatization of health and water supplies, viewed merely as economic commodities to be flogged off to highest bidder. It is also pushing for the easing of restrictions on forest produce trade (ie logging) and on trade in genetically modified foods.

We human beings were given the earth and each other, to be taken care off. We do now, at this period of our evolution have free will, freedom to choose between good and evil. There are definite beings of power who are dedicated towards enslaving and pulverizing all human beings to the ways of world machines - all for the greed of a few.

I beg you, as one citizen, who feels impelled to stand up and be counted, please have nothing to do with any multilateral treaties as they are in a position to totally override our cultural, environmental and political safeguards.

Are we still the Lucky Country? I don't think that we ever were. Do you politicians ever open your vistas by reading sources of info other than conventional media reports (owned by big business).

Please do some homework. Please have public discussion, unlike Nov 1998, when Australia was going to sign a Treaty in total secrecy. People are ignorant and need to be awakened.

Regards

Mrs M Ghuyas
