

Expansion at Enoggera Barracks

I read about this pending expansion in our local paper. I would like to suggest that an upgrade of the lights at the junctions of Samford Rd and Pickering St should be made to include Grays Rd, Gaythorn. This intersection is often involved in accidents and there have been quite a few fatalities since I moved in to the area eight years ago.

The busyness of the intersection is compounded by its proximity to Gaythorn Railway Station, a nearby bus stop other side streets and the curve of the road that somewhat impedes visibility.

More men and women at the barracks will mean more traffic at certain times of the day and potentially more accidents.
