P O Box 6021 Parliament House
CANBERRA ACT 2600

Dear Sir/Madam

SUBMISSION – PAWSEY HIGH PERFORMANCE COMPUTING CENTRE – KENSINGTON WA

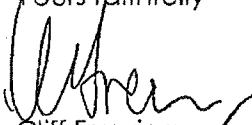

The City of South Perth would like to convey its enthusiastic support for the above mentioned project.

The City recognises the significant National and State significance of the SKA project and strongly believes that the location for the High performance Computing Centre at the Bentley Technology Park is the most ideal location for such a facility. The Centre would be very conveniently located to other complementary ICT organisations within the Technology Park and has the added benefit of being located adjacent to Curtin University.

The Bentley Technology is the most intense technology precinct within Australia and is understood to be the 9th largest technology park internationally. It has excellent road and public transport links to the City, freeway and airport.

The proponents have met with the executive team from the City and discussed the proposal in some detail. The plans attached to the Statement of Evidence before the Committee indicates a development which generally meets the requirements of the City of South Perth Town Planning Scheme in terms of use of the land and development requirements. It is the City's opinion that a development approval will be required and this has been discussed with the proponents.

Yours faithfully

Cliff Frewing
CHIEF EXECUTIVE OFFICER
