Hi Casey, are you please able to pass on this comment?

I was asked about optimum FIFO rosters, and I answered that it depends on the individual and location. I have worked rosters from 4 months on 4 weeks off down to 5/2/4/3

However I should have added that when doing the longer rosters I only do them for a year. All the guys you meet on those long rosters are either single, divorced or going through divorce. The longer rosters are the hardest on families. Anything more than 2 weeks away from home is corrosive on relationships.

Hope this helps, and thanks for inviting me to attend.

Steve
