---

I am writing regarding the above. The increases in Strata Insurances are totally unsustainable - people cannot pay, cannot sell and are in dia situations. Here in Airlie Beach we have not had any huge claims - most of us have had our insurances increased from 200% to 1000%. People are in a dreadful situation. As we are made to insure - what do we do. It really must be looked at and the Government needs to look at assisting.
