## Foreword

**Making ends meet** might seem an unusual title for a report on regional aviation and alternative sea services. It is not.

From both a symbolic and literal point of view the title is highly relevant.

In terms of symbolism and national sentiment, there is a need for the 'ends' and outposts of Australia to be engaged with its major capital and provincial cities as a guarantee of productivity, efficiency and social development.

In literal terms there are many areas of Australia simply unable to make ends meet in the provision of transport services.

The local councils of smaller regional and island communities are having difficulties making ends meet in providing airport infrastructure for regional aviation services. The communities these councils serve are experiencing difficulties making ends meet and are tending to use air services less frequently. Island communities are having difficulties making ends meet with the limited sea services and port infrastructure currently available. Regional airlines are having difficulties making ends meet as their costs rise and their markets erode. Smaller air service operators will have difficulty in making ends meet as new generation aircraft replace existing workhorses.

Action is needed by the Commonwealth to ensure that regional aviation services and alternative sea services remain available and affordable to business and private citizens who rely on them. Engagement with the wider Australia community is a basic right of all Australians.

Regional aviation and alternative sea services are essential to enable Australia's regional and island communities to realise their potential. These services maintain and strengthen the bonds between communities in regional areas, and between urban and regional communities. In so doing, these transport services build the social and economic fabrics of these communities. Accordingly, regional aviation

and the alternative sea services to island communities are essential elements of the Commonwealth's policy for regional Australia.

The committee found that the key issues affecting regional aviation services were rising costs, falling returns, declining service levels, poor interconnectivity between services, difficulty maintaining country airports, the processes for regulating aviation safety, the need for policy coordination and the challenge of providing small aircraft to service country areas.

Regional communities assumed responsibility for their local airport 10 or more years ago under the Commonwealth's Aerodrome Local Ownership Plan. Larger communities can generally support their airports. However, many smaller communities of less than about 30 000 people, where traffic volumes have fallen away, are finding it difficult to support and maintain their airport. To exacerbate this situation, many local airports need upgrading to meet current standards for aircraft and safety. With very limited financial resources, these communities have difficult decisions to make concerning the future of their airports.

The communities of Australia's major populated islands are experiencing similar issues with their sea services and port infrastructure.

The committee considers that some additional Commonwealth assistance to smaller regional communities is justified to lessen the impact of many factors that are beyond their control.

The economics of regional aviation services are posing a threat to their existence. The costs of providing air services to many regional locations have increased. Some of these added costs are due to increases in taxes, levies and the cost recovery activities of the three levels of government. At the same time revenues are static or declining. The resulting thin margins mean that as costs increase, operators have little alternative other than to increase the price of their tickets.

However, potential patrons of regional air services are either unwilling or unable to pay the higher airfares. Aggravating this situation are inconvenient schedules and delays at capital city airports. Travellers want affordable and efficient transport, and are increasingly turning to the motor vehicle or simply travelling less.

The evidence shows clearly that competition is sustainable in larger markets such as domestic trunk air routes. Where there is insufficient depth in the markets for air and sea services to sustain competition, government is intervening. Further government intervention is required to meet the needs of regional and island communities.

Aviation safety regulations and the way they are administered by the Civil Aviation Safety Authority (CASA) impose significant costs on smaller airline

operators in particular. However, a strong, effective and credible regulator is essential to preserving public confidence and patronage of regional aviation services. The committee has recommended ways for CASA to strike an appropriate balance between educating stakeholders and policing regulations.

At a time of many significant challenges to the aviation industry, this report recommends a number of policy developments and adjustments to current policy.

The recommendations are aimed at providing greater financial support to improvements to aviation and alternative sea services to certain communities. Other recommendations are aimed at improving the business environment for regional airlines and building on the capacity of operators. This will enable regional aviation services to be a more attractive transport option for business and private citizens needing to use regional aviation services.

Improving the commercial regional aviation services in Australia and alternative sea services to island communities is a matter of equity, a matter of efficiency and a matter of genuine social engagement. The issues identified in this report cannot be neglected any longer.

Paul Neville MP  
Committee Chair

## **Membership of the Committee**

Chair            Mr Paul Neville MP

**Deputy Chair** Mr Steve Gibbons MP

**Members** Mr Peter Andren MP

Mr Stewart McArthur MP

Mr Barry Haase MP

Mr Frank Mossfield MP

Mrs Sussan Ley MP

Mr Alby Schultz MP

Ms Kirsten Livermore MP (from 20/08/02  
to 02/12/02)

Mr Patrick Secker MP

Ms Michelle O'Byrne MP (to 20/08/02  
and from 02/12/02)

## **Committee Secretariat**

<b>Secretary</b>	Dr Anna Dacre
<b>Inquiry Secretary</b>	Mr Ian Beckingham
<b>Research Officer</b>	Mr Anthony Overs
<b>Administrative Officers</b>	Mrs Marlene Dundas Ms Jeannie Brooks

## **Terms of reference**

House of Representatives Standing Committee on Transport and Regional Services is to inquire into:

- The adequacy of commercial air services in regional and rural Australia.
- Policies and measures required to assist in the development of regional air services, including:
  - ⇒ regional hub services;
  - ⇒ small scale owner-operator services; and
  - ⇒ the deployment of most suitable aircraft types.
- The adequacy of commercial air services to major populated islands and the adequacy of alternative sea services.
- Interconnectivity between regional air transport systems, major national air services and international services (including on-carriage, through ticketing, freight handling, timetabling and airport slotting).
- The role of all three levels of Government in supporting and assisting the development of regional air services and island transport systems.
- The role of major air transport carriers in providing regional services.

## List of recommendations

### 3 The operating environment for regional air services

#### Recommendation 1 ..... 55

The committee recommends that the Australian Competition and Consumer Commission:

- Investigate the anti-competitive behaviour of the operators of computerised reservation systems as it affects regional airlines;
- Report its findings by the end of 2004; and
- Take action against any party found to be abusing its market position with regard to the operation of computerised reservation systems.

#### Recommendation 2 ..... 63

The committee recommends that the Department of Transport and Regional Services and the Department of Education, Science and Training in conjunction with the Regional Aviation Association of Australia and other relevant industry bodies:

- Identify management training needs of the regional airline industry;
- Develop and deliver an awareness program that encourages greater uptake of management training in the industry; and
- Develop and deliver a program that improves the business management skills in the industry.

---

**Recommendation 3 ..... 66**

The committee recommends that the Department of Transport and Regional Services:

- Investigate the issue of pilot shortage in regional airlines;
- Report on its findings regarding the shortage of pilots by the end of 2004; and
- Develop an appropriate program to expand pilot training in regional Australia along the lines of its program to expand aircraft maintenance training, if a pilot shortage is identified.

#### **4 Issues facing regional communities**

**Recommendation 4 ..... 91**

The committee recommends that the Department of Transport and Regional Services ensure that small and medium regional aviation enterprises are well represented in the initiatives and benefit directly from the initiatives arising from the Commonwealth's action plan for its *Stronger Regions: A Stronger Australia* framework.

**Recommendation 5 ..... 96**

The committee recommends a new airport ownership subsidy scheme covering capital works and essential maintenance, as follows:

- For communities with a population above 30 000, assistance is to be provided only on special one-off cases where there is demonstrable evidence of the inability to fund a major runway upgrade or terminal extension; and
- Communities with a population under 30 000, supporting a regional or hub airport with RPT services, to receive a 50 per cent subsidy; and
- Still smaller communities supporting an airport with low RPT, charter and air ambulance to receive a 33 per cent subsidy.

**Recommendation 6 ..... 96**

In the absence of an airport local ownership assistance program similar to that outlined above, the committee recommends that the Commonwealth resume ownership and funding of all essential airports in communities with a population under 30 000.

**Recommendation 7 ..... 96**

The committee recommends that funding for the Remote Air Service Subsidy scheme should be maintained to at least the current 2003-04 level.

**Recommendation 8 ..... 97**

Subject to the findings of the Joint Statutory Committee on Public Accounts and Audit's inquiry *Review of Aviation Security In Australia*, the committee recommends that, for communities with a population under 30 000, the Commonwealth Government should assist with the provision of appropriate security measures where risk assessments indicate that security upgrades are required.

**5 Island and remote communities****Recommendation 9 ..... 105**

The committee recommends that the Commonwealth should extend its programs to assist additional remote northern Australian communities.

**Recommendation 10 ..... 112**

The committee recommends that the Department of Transport and Regional Services work with the Tasmanian Government to bring about an improvement in cargo services to Flinders Island.

**Recommendation 11 ..... 121**

The committee recommends that the Department of Transport and Regional Services works with the South Australian Government to examine the possible solutions suggested by the committee to improve ferry services and port and wharf facilities for Kangaroo Island, including:

- Introduction of fair competition; and
- State Government contribution to maintenance and upgrade of port and wharf facilities.

**Recommendation 12 ..... 126**

The Committee recommends that, as per the findings of the Commonwealth Grants Commission, Norfolk Island receive Commonwealth assistance in upgrading or renewing its shipping infrastructure facilities.

**Recommendation 13 ..... 126**

The Committee recommends that the Commonwealth Government accept the recommendations outlined in the *Delivering the Goods* report by the Joint Standing Committee on the National Capital and External Territories, especially in respect of an appropriate subsidised vessel for heavy freight.

**Recommendation 14 ..... 128**

The committee recommends that the Department of Transport and Regional Services works with the Northern Territory Government to conduct, on a subsidised trial basis, a passenger ferry service to the Tiwi Islands.

**6 Government policies: regulation, and taxes and charges****Recommendation 15 ..... 139**

The committee recommends that the Commonwealth:

- Recognise the exceptional circumstances that exist in regional aviation markets in its review of state and territory compliance with National Competition Policy, and agree to states and territories regulating intra-state regional aviation markets where such exceptional circumstances exist; and
- Strengthen the public interest test of the National Competition Policy by specifically requiring regional aviation and island transport policies to be assessed against the interests of rural and regional communities.

**Recommendation 16 ..... 149**

The committee recommends that the Commonwealth:

- Provide the resources necessary to the Bureau of Transport and Regional Economics for the timely collection, interpretation and public provision of data and information, particularly though not exclusively, in regard to:
  - ⇒ consumers services and prices;
  - ⇒ congestion in the aviation system and interfaces;
  - ⇒ connectivity available to regional passengers from regional airlines;
  - ⇒ regional services activity;
  - ⇒ share of the domestic market held by each operator;

- ⇒ the origin and destination of domestic and regional trips;
  - ⇒ airport charges, including charges levied by regional airports; and
  - ⇒ air freight; and
- Through the Department of Transport and Regional Services, publicly report on the health of the regional aviation industry at least once every two years.

**Recommendation 17 ..... 158**

The committee recommends that the Department of Transport and Regional Services and Airservices Australia introduce a universal service charge for aviation rescue and fire fighting services at regional airports to reduce the wide disparity in the charges for those services and to reduce the overall impact of the charges on regional aviation costs.

**Recommendation 18 ..... 158**

The committee recommends that:

- The Department of Transport and Regional Services and Airservices Australia form a working group with key stakeholders (such as the relevant local government associations, town planning and standards bodies) to advise on the strategic and optimal co-location of fire fighting services; and
- Airservices Australia provide the initial aviation rescue and fire fighting equipment and crew training, at no cost, to communities where fire fighting services become co-located.

**Recommendation 19 ..... 166**

The committee recommends that the Department of the Treasury:

- Review the taxation arrangements relating to the replacement of small ageing aircraft by the end of 2004;
- Publicly report the findings of the review by the end of 2004; and
- If justified, introduce provisions in the taxation legislation that assist the owners of small ageing aircraft to replace these aircraft; or
- Introduce incentives to assist in the replacement of aged aircraft.

**Recommendation 20 ..... 174**

The committee recommends that the Department of Finance and Administration and the Department of Transport and Regional Services ensure that regional airlines have an equitable share of the Commonwealth's travel market by:

- Setting an objective share of key routes used by the Commonwealth and an overall share of the Commonwealth travel market, consistent with 'best fare of the day' and 'value for money';
- Auditing the compliance of Commonwealth departments and agencies with criteria based on 'objective share of key routes used by the Commonwealth', 'best fare of the day' and 'value for money'; and
- Publishing the results of the compliance audit.

**Recommendation 21 ..... 175**

The committee recommends that the Department of Finance and Administration monitor and report on the effectiveness of the 'best fare of the day' policy by:

- Conducting periodic, random and anonymous spot checks to determine the fare offered to the Commonwealth by Qantas Business Travel, Virgin Blue and regional operators, and how this fare compares with the corresponding fare available from smaller regional airlines, and the 'best fare of the day' offered by Qantas Business Travel; and
- Reporting the results of these spot checks to the Minister for Finance and the Minister for Transport and Regional Services.

**Recommendation 22 ..... 180**

The committee recommends that the Commonwealth retain the current measures to ensure that regional airlines have access to Sydney airport and other capital city airports.

## 7 The regulator – Civil Aviation Safety Authority

### Recommendation 23 ..... 189

The committee recommends that the Department of Transport and Regional Services:

- Verify the adequacy of regulation impact statements for amending aviation safety regulations prepared by the Civil Aviation Safety Authority; and
- Assess that the cost impacts calculated are reasonable and justified, taking into account the importance of regional aviation to regional, rural and remote communities.

### Recommendation 24 ..... 193

The committee recommends that the Civil Aviation Safety Authority introduce into its service charter mandated response times and fixed and fair prices for its services.

### Recommendation 25 ..... 196

The committee recommends that the Civil Aviation Safety Authority:

- Review its training processes to ensure consistency of the Civil Aviation Safety Authority’s interpretation of the law and regulations;
- Introduce an ongoing program of staff training in regulation interpretation to ensure improved consistency of the Civil Aviation Safety Authority’s interpretation of the law and regulations; and
- Regularly assess and record in its annual report, the levels of knowledge and competency of its staff in interpretation of the law and regulations.

### Recommendation 26 ..... 198

The committee recommends that the Department of Transport and Regional Services:

- Conduct an annual confidential client satisfaction survey to test industry’s satisfaction with the services that the Civil Aviation Safety Authority delivers, and assess compliance with its service charter; and
- Publicly report the results of these surveys, ensuring that confidentiality is maintained.

**Recommendation 27 .....207**

The committee recommends that:

- The Civil Aviation Safety Authority provide customer relations management training to its staff, particularly those in regional offices;
- The Commonwealth establish an Aviation Ombudsman, and ensure that this position is filled by an appropriately skilled person, to consider all aviation industry related complaints; and
- The duties of the Aviation Ombudsman would include, in addition to examining operational complaints, conducting independent surveys of industry, ensuring that the confidentiality of respondents is maintained. These surveys would assess the effectiveness of the Civil Aviation Safety Authority's measures to improve the consistency of its interpretation of aviation regulations.

**Recommendation 28 .....211**

The committee recommends that:

- The Civil Aviation Safety Authority, in addition to enforcing aviation safety compliance, place greater focus on activities to assist industry players in complying voluntarily with the regulations; and
- The Australian National Audit Office periodically audit and report to Parliament on the Civil Aviation Safety Authority's:
  - ⇒ compliance with its service charter;
  - ⇒ fulfilment of fostering a culture of safety in the industry;
  - ⇒ policing the regulations to achieve aviation safety outcomes; and
  - ⇒ provision of information and education services provided jointly with the industry.
