Question

Ms MASCARENHAS: This will be a quick question. Was the original CHES project, the 30-year-old legacy project, delivered internally by the ASX or by a third party?

Ms Lofthouse: Unfortunately, it was 29 years ago, and I don't have all the details. I believe it was an internally delivered project, but we'd have to come back and confirm that to you to be definitive.

Answer

CHES was built in-house, with a third party provider (RJE Systems) engaged to lead the build.
