**ANSWERS TO QUESTIONS ON NOTICE**

Additional Estimates 2017 - 2018

**Infrastructure, Regional Development and Cities**

**Committee Question Number: 49**

**Departmental Question Number: SQ18-000036**

**Program: n/a**

**Division/Agency: Airservices Australia**

**Topic: Closure of contaminated facilities**

**Proof Hansard Page: 87 (26 February 2018)**

**Senator Lee Rhiannon asked:**

Senator RHIANNON: The training academy in Fiskville was closed. Are there other facilities, including training facilities, that have similar levels of contamination to what was found at Fiskville and that have also been closed?

Ms Bennetts: I'd have to take that on notice, Senator—in relation to the levels at that facility and our understanding of them.

**Answer:**

Airservices has not closed any facilities, including training facilities, as a result of PFAS contamination. Fiskville was a Victorian Country Fire Authority training facility.
