PRIVATE MEMBERS' BUSINESS—*continued***Notices**—*continued***1 MR PRICE:** To move—That this House:

- (1) notes the Report by the Committee of Sydney Inc “Sydney's Gateways In The 21st Century - Part 1: The Airports”, prepared by Access Economics and Maunsell McIntyre Maunsell, dated June 2000 which states amongst other things:
 - (a) on a neutral set of assumptions, operations could commence at Badgerys Creek Airport (BCA) in 2020. To achieve this relies on a subsidy in the first two years and no interim measures to prolong Kingsford-Smith Airport (KSA) and, in the absence of other interim measures to prolong KSA (like Bankstown or speed rail), 2020 is the optimal start date for BCA;
 - (b) the earlier BCA commences the greater the economic negatives. If a private owner of Sydney airports is required to commence operations at BCA before it is economically viable, potential bidders will deduct an amount reflecting the cost of the subsidy from their bid price. For example, to commence BCA in 2015, the operational subsidy costs \$160m in the first year, gradually reducing to zero as BCA becomes viable in its own right. The total subsidy outlay from 2015 to 2019 is \$570m. To commence in 2010 the cost rapidly escalates to \$270m in the first year and \$1,700m in total from 2010 to 2019 (in 1997 dollars); and
 - (c) a \$1,700m subsidy to commence operations at BCA in 2010 will cause little reduction in KSA noise while accelerating the introduction of noise over Western Sydney. Reducing noise over inner Sydney would require an even larger subsidy; and
- (2) urges the Minister for Transport and Regional Services to have an Independent Commission of Inquiry into Sydney's Transport Needs and examine all options including Speed Rail, Interim measures to extend KSA, BCA and other alternative sights for Sydney's Second Airport. (*Notice given 27 June 2000. Notice will be removed from the Notice Paper unless called on on 26 February 2001.*)

2 MR MOSSFIELD: To move—That this House:

- (1) acknowledges the importance of the construction of the Western Sydney Orbital Road System to the economic and social development of Western Sydney;
- (2) acknowledges the importance of road transport access that diminishes interference with road users in local communities;
- (3) recognises that in heavily developed regions such as Western Sydney, the speedy access by road transport to local business developments is vital in assisting productivity and business growth;
- (4) notes the policy commitment of successive governments to build the Western Sydney Orbital Road System;

- (5) acknowledges that only minimum funding has ever been set aside for the building of the Western Sydney Orbital Road System and that conditions of construction have included the building of a second airport at Badgerys Creek; and
 - (6) calls on the Federal Government to listen to and act upon the many calls from affected residents, business groups, business development committees, local government spokespersons and other interested parties in Western Sydney and urgently provide sufficient funding to enable the NSW Government to combine in partnership with the Commonwealth to commence immediate construction of the whole Western Sydney Orbital Road System. (*Notice given 14 August 2000. Notice will be removed from the Notice Paper unless called on on the next sitting Monday after 26 February 2001.*)

 - (2) recognises that the role played by Australian civilian ships in East Timor continues the enormous role the Australian Merchant Navy has played historically in our ever expanding peacetime carriage of trade both domestically and internationally and through its service in two World Wars at cruel cost, with one seafarer in every eight dying and many more disappearing unrecorded in the ships of many nations;
 - (3) supports the International Maritime Organisation's recognition of maritime workers and the importance of merchant shipping, including Australian coastal shipping through the celebrations of Maritime Day on September 24; and
 - (4) believes that World Maritime Day should be regarded as a day of maritime pride and history and that the Australian Government should promote the flying of the Australian Flag rather than Flags of Convenience. - (9) That members of the committee who are not members of a subcommittee may participate in the public proceedings of that subcommittee but shall not vote, move any motion or be counted for the purpose of a quorum;

- (3) Will these places lapse after three years, so that in the fourth year the first 2000 places disappear, and in the fifth year after three year's tenure, the second tranche of 2000 places are gone, so that in the fifth year there are only 6000 new places.
- (4) In either case, does the announcement of 2000 new places each year over the next five years mean more places than the announcement that over that period, this will result in 21 000 equivalent full time student places at a cost of \$151 million.

- (6) Has the Government rejected the recommendation of the Chief Scientist in *The Chance to Change*, August 2000, to create 500 HECS scholarships to attract the best students to science degrees, at a total cost for five cohorts of about \$40 million, in favour of a program to enrol weaker students at a cost of \$151 million.

- (3) Does paragraph 14(5)(f) of the Airports Act state that an airport lease complies with the subsection if, in the case of Sydney West Airport, the

- (10) Is travelling by train safer than travel by car or aircraft.
- (11) Is he aware of transport safety statistical comparisons between road, rail and aircraft; if so, what are the names of those studies.
- (12) Is he aware that researchers in the US have found that travelling by train is 6800 times safer than travelling by road and that similar figures also apply for a comparison between air and train travel.
- (13) What measures will be put in place to promote the construction of a Very High Speed Train service between Sydney and Melbourne.
- (14) Is it a fact that (a) railway equipment is largely locally manufactured and (b) most aircraft are imported at high cost.
- (15) Is he able to say whether Speedrail had forecast a net economic benefit from the project of \$5.3 billion measured in tax payments, new employment, savings on highway construction and reductions in pollution, highway fatalities and greenhouse emissions.
