- (1) notes that:
  - (a) microfinance has proven to be a particularly effective and sustainable means of eradicating poverty;
  - (b) microfinance borrowers, particularly women, generate income that allows them to feed, clothe, educate and care for the health of their children;
  - (c) in December 2006, 93 million of the poorest people had access to microfinance services, which is a 12-fold increase since 1997;
  - (d) in support of the poverty eradication goal of the Millennium Development Goals, the Microcredit Summit Campaign, launched in 1997, is working to expand microfinance to 175 million of the poorest people by 2015;
  - (e) the Microcredit Summit Campaign is holding an Asia-Pacific Microcredit Summit in Bali between the 29<sup>th</sup> and 30<sup>th</sup> July 2008;
  - (f) the Asia-Pacific region contains 64% of the world's population who live in absolute poverty, and as such it has a large unmet need for credit and other financial services; and
  - (g) the Bali Summit is a significant opportunity to examine ways to expand the use and effectiveness of microfinance in the region and to realise the Government's policy objective of reducing poverty in the Asia-Pacific region; and

- (1) that Ovarian Cancer Awareness Week will be held from 24 February to 2 March 2008;

  - (3) that when ovarian cancer is diagnosed at an early stage, the outlook is very good—as many as 90% of women diagnosed early are cured. However, 75% of women are diagnosed at the advanced stage when it is very difficult to treat;
  - (4) that it is a devastating disease that is difficult to diagnose early and treat at an advanced stage. A woman dies every 10 hours largely because of the lack of early detection tests and poor knowledge of the disease throughout the community;
  - (5) that a recent Senate Community Affairs inquiry into gynaecological cancer in Australia (tabled 27 February 2007) identified a need for increased awareness amongst the broader community about gynaecological cancers and symptoms and better educational support for general practitioners;
  - (6) that a survey commissioned by the National Breast Cancer Centre has revealed that half of all Australian women believe incorrectly that a pap smear will detect ovarian cancer and that 56% of women are unable to correctly name any signs or symptoms of the disease; and
  - (7) the need for greater focus on education and additional research funding to help Australian scientists to find early detection markers and more effective treatments of this insidious disease.   - (3) supports the efforts of the selfless individuals who give their blood to help save the lives and improve the health of people whom they may never meet;
  - (4) congratulates the Australian Red Cross Blood Service for drawing attention to the need for more Australians to donate blood and celebrating the many generous and voluntary, unpaid blood donors who give blood each week to help those in need;

    - (e) construction of the desalination pipeline has commenced across Botany Bay from the Kurnell Peninsula, under approval as critical infrastructure by the New South Wales State Government;

    - (b) due to the use of Part 3A of the Act, the impacts of the construction of this pipeline on the marine environment and cultural heritage of Botany Bay and the Kurnell Peninsula are unknown; and

- (c) since construction has commenced, there have been a series of breaches in relation to the failure of silt nets to contain land fill on Silver Beach at Kurnell; sheet piling testing has exceeded nominated noise vibration benchmarks, posing a threat to resident property; and there is concern in the community about the ongoing impacts and failures of this project; and
- (3) calls on the Minister for the Environment, Heritage and the Arts to protect the physical environment and cultural heritage of Botany Bay and the Kurnell Peninsula by requesting the New South Wales State Government to:

  - (3) calls on the Federal Government to reimburse grocery and convenience stores that provide collection sites for the empty bottles and provide cash refunds for each bottle, with larger bottles attracting a larger cash refund; and
  - (4) calls on the Federal Government to cooperate with local government bodies to ensure that smaller towns in rural, regional and remote Australia receive financial support to establish a collection centre and to transport bottles to the nearest recycling centre. (*Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 8 sitting Mondays after 16 June 2008.*)
