- (7) Is it correct that 30 November 2006 is the deadline for the people of the community to make their decision on the 99 year lease.

- (8) (a) What absolute safeguards will there be to ensure that the Indigenous people do not lose control of their land; and (b) if they agree to a 99 year lease, how will they be able to terminate that lease, or a sub-lease.

- (10) (a) After 99 years, what guarantee is there of the land reverting back to Indigenous control and in an undamaged useable state if business has operated on it.

- (6) (a) How many community stores have been visited by board members, or their delegates; and (b) can a list of the visits be provided.

- (8) (a) Where do the funds come from to meet any board expenses; (b) who provides secretariat support to the board; and (c) of what does that support comprise.

- (2) What preventive measures has the Government adopted for osteoporosis, given that it is largely preventable through weight bearing exercise and calcium supplements.
- (3) (a) Why did the Government take calcium off the Pharmaceutical Benefits Scheme for osteoporosis; and (b) was this against the advice of the Pharmaceutical Benefits Advisory Committee.
- (4) Has the Government considered providing blood vitamin D testing given the evidence that the high rate of hip fractures in old people is due to deficiencies in calcium and vitamin D.
- (5) Does the Government accept that people in wheelchairs are unable to do weight bearing exercise and warrant earlier access to bone mineral density scans; if so, will rebates be provided for such people.
- (6) What was the rationale for limiting the Medicare rebate on bone mineral density scans at minimum intervals of 2 years.

2961 **Senator Allison:** To ask the Minister representing the Minister for Transport and Regional Services—

- (1) For each of the years 2004, 2005, 2006 and 2007 to date, how many electric vehicles were: (a) imported into Australia; and (b) manufactured in Australia.

- (3) What does the Attorney-General understand to be the reason for this time-related qualification on admissible evidence, given that the decision by the US Supreme Court in *Hamdan vs Rumsfeld* in June 2006, determined that presidential appointments of military commissions were illegal and that lawfully appointed commissions would have needed to comply with common Article 3 of the Geneva Conventions.
- (4) Can the Attorney-General confirm that if Mr Hicks were to have been charged before a US court-martial such evidence would be inadmissible.
- (5) Has the Australian Government made representation to the US Government requesting: (a) that Mr Hicks be tried by court martial; if not, why not; and (b) through regulation or instruction, that no statement by Mr Hicks obtained by cruel, inhuman or degrading conduct, whether before or after 30 December 2005, will be admissible in the proposed commission; if not, why not.

- (1) Can the Minister confirm that participants at the Maralinga nuclear tests must independently prove that they were at the tests in order to be eligible for the new white cards; if so, why is this the case given that the Administrative Appeals Tribunal has ruled that the published document of the preliminary nominal roll was sufficient evidence that they were present.
- (2) Does the Government now dispute the fact that those on the roll were present at the tests; if so, on what basis.
- (3) If the Government has taken the position that the *Epidemiology Studies (Confidentiality) Act 1981* restricts the use of the roll for such purposes, is it the case that this restriction does not apply once the relevant study is completed.

- (3) Is the Minister aware that the John Flynn Private Hospital on the Gold Coast, Queensland is ready to operate, but needs \$350 000 per year in funding for this to be possible.

2971 **Senator Bartlett:** To ask the Minister representing the Prime Minister—With reference to the Government's water policy—

- (1) In Australia, is the water that falls on a person's roof the property of that person or the property of government.
- (2) If it is not the property of the individual person, under what legislation in Australia are rights to water that falls on a person's roof vested in governments, as claimed under clause 2 of the National Water Initiative (NWI) Agreement.
- (3) Under clause 2 of the NWI Agreement, can governments, at their discretion, set entitlement regimes for the use of water that falls on a person's roof in Australia; if so, under what circumstances would state or federal governments issue a specific entitlement to persons who capture water from their roof and what would that entitlement be.
- (4) What magnitude of rainwater collected from roofs would be sufficient to warrant the issuing of specific entitlements to use this class of water as has been proposed by the National Water Commission.

- (5) Does the Government rule out setting an entitlement regime for persons to use water collected from roofs in rainwater tanks; if so, will the Federal Government ask the state governments to amend the NWI Agreement to make clear that no rights to water that falls on a person's roof are vested in governments.
- (6) Is it correct that section 7 of the Victorian *Water Act 1989* states, 'The Crown has the right to the use, flow and control of all water in a waterway and all groundwater'; if so, is it the Commonwealth's view that, for the purposes of the NWI, water from a person's roof comes under this definition.
- (7) Is it correct that section 392 of the New South Wales *Water Management Act 2000* states, 'the rights to the control, use and flow of ... all water occurring naturally on or below the surface of the ground, are the **State's water rights**'; if so, does water from a person's roof come under this definition.
- (8) Is it correct that section 19 of the Queensland *Water Act 2000* states, 'All rights to the use, flow and control of all water in Queensland are vested in the State', where: (a) 'water means... (a) water in a watercourse, lake or spring; (b) underground water; (c) overland flow water; (d) water that has been collected in a dam'; and (b) 'Overland flow water does not include ... water collected from roofs for rainwater tanks'; if so, does water from a person's roof come under this definition.
- (9) Is it correct that section 124 of the South Australian *Natural Resources Management Act 2004* states, 'the occupier of land is entitled to take surface water from the land for any purpose' and does surface water mean 'water flowing over land'.
- (10) Is surface water in South Australia: (a) water that is not captured and controlled; and (b) no-one's property.
- (11) Can water that falls on a person's roof in South Australia be surface water.

- (2) Is it acceptable that complaints about breaches of the commercial television code of conduct should take this long to reach a conclusion.
- (3) Since the ACMA was established, what has been the average length of time for the authority to resolve complaints concerning the commercial television code of conduct.
- (4) Is the Government or the ACMA taking steps to accelerate the resolution of complaints under codes of conduct registered with the ACMA.

- *2973 **Senator McLucas:** To ask the Minister representing the Minister for Transport and Regional Services—With reference to the investigation by the Australian Transport Safety Bureau (ATSB) of the fatal crash of the aircraft VH-TFU at Lockhart River in May 2005: Was the information available to the ATSB, which formed the basis for the ATSB's decision to refer Transair Pty Ltd to the Commonwealth Director of Public Prosecutions: (a) available from the Civil Aviation Safety Authority's (CASA) audit and monitoring processes; and (b) acted upon by CASA.
- *2974 **Senator Bishop:** To ask the Minister representing the Minister for Defence—
- (1) Following the death of Private Jake Kovco in Baghdad on 21 April 2006, was an instruction given to the Combined Joint Task Force (CJTF) in Baghdad by the Special Investigation Branch that the body was not to be moved in advance of the arrival of the investigating team so as to protect vital forensic evidence, and was that order the subject of a phone call to Major Pemberton of the Special Investigation Branch at 0200 hours on Sunday, 23 April 2006 from a senior officer at the CJTF in Baghdad challenging the order on the basis of a counter order to remove the body to Australia as soon as possible, as referred to in evidence given to the Board of Inquiry (BOI) (Transcript of Proceedings, 16 August 2006, p. 1122).
 - (2) Was a second phone call also made to Major Pemberton from the Chief of Staff at the CJTF in Baghdad 3 hours later, also challenging the order that the body not be removed, and was reference made to 'risk managing' the removal of the body from Baghdad so that it could be returned home to Australia as soon as possible; if so: (a) did that 'risk management' include the over ruling of Major Pemberton; and (b) who gave that new order.
 - (3) Did Major Pemberton deny in evidence (Transcript of Proceedings, 16 August 2006, p. 1123) that he had ever given approval for the removal of the body, contrary to his earlier order; if so: (a) why was he misrepresented in evidence; (b) why was his order countermanded; and (c) on whose instruction.
 - (4) As referred to on page 1157 (Transcript of Proceedings, 16 August 2006), is it a fact that the 'investigative protocols, or the way we do business, our procedures', referring to the Military Police, were 'overtaken by competing priorities', were these 'priorities' the urgent repatriation of Private Kovco to Australia within 4 days; if so, what effect did that decision have on the quality of the investigation.
 - (5) Can the Minister confirm the evidence on page 1157 (Transcript of Proceedings, 16 August 2006) that this type of conflict by which investigations are compromised by competing priorities is commonplace; if so, what action has been taken to address this shortcoming.
 - (6) Did Major Pemberton as officer in charge of the Special Investigations Branch, also order that Private Kovco's pistol was not to be released to 'anybody until we were given clarification as to what was occurring' and was he again overruled by the CJTF with the gun being passed to the New South Wales police.
 - (7) (a) Why was the immediate travel to Baghdad on 22 April 2006 by the Military Police flyaway team suspended; and (b) on whose instruction.

- (8) When was it decided that the New South Wales Police Homicide Branch should investigate the death of Private Kovco, and were the reasons for that due to the lack of relevant ballistic and forensic skills on the part of the Military Police.
- (9) (a) When were the Military Police, investigating the incident scene in Baghdad, informed that the New South Wales Police were also involved; and (b) was that after the incident scene had been completely cleaned and all traces of evidence destroyed.
- (10) (a) On what date were the Military Police first able to interview witnesses to the incident and why did it take so long; (b) when did the New South Wales Police interview those same witnesses; and (c) which witnesses were not interviewed by either of the investigating police and why not.
- (11) (a) Were highly critical comments made on the resourcing and capacity of the Military Police, as evident in the transcript of the BOI, including lack of staff, equipment and training; if so, how is this being address; and (b) does the Military Police have a poor reputation and therefore lack the confidence of senior command.
- (12) Does the Minister accept the evidence given at pages 1350 and 1351 of the BOI transcript (23 August 2006) iterating the failures of the investigation, as follows:

The lack of investigative support on the ground at the time of the incident was the starting point for a number of significant and avoidable situations. Those being the loss of potential forensic evidence from the deceased and witnesses, uncontrolled access to the incident site and removing of evidence, the moving of PTE Kovco after direction was given not for him to be moved which eventually lead (sic) to his failed repatriation to Australia, witnesses not being in location at the time the investigators arrived, change of jurisdiction of the coroner for where the deceased was to be returned to, the interference that came from certain elements within the command structure and because we had no investigative support on the ground, no liaison being effective with coalition forces prior who may have been able to assist us on the ground;

if so, what action has been taken within the Australian Defence Force to specifically address these shortcomings and what directions have been altered with respect to future incidents.

*2975 **Senator Bishop:** To ask the Minister representing the Minister for Defence—

- (1) Has the Minister's attention been drawn to a media item published in the *Australian* of 5 December 2006 concerning a request from the family of the late Private Kovco for a review of the Board of Inquiry (BOI) findings on the death of Private Kovco; if so, has the Minister agreed to such a review; if not, why not.
- (2) For the past decade: (a) in how many cases have such reviews of BOI findings been conducted; and (b) in each case: (i) by whom, and (ii) with what outcome.
- (3) Can the Minister confirm the assertion in the media article referred to that Group Captain Cook, Chairman of the BOI, had stated that his findings had been sent for such review, and that no such review had been undertaken; if so: (a) what is the reason for that decision; and (b) does that mean that the

department is satisfied that the BOI findings reflect the evidence given to the Inquiry.

- (4) In his answers to the media on 7 July 2006, did the Chief of the Defence Force state that 'had we been successful the first time around we would have got Private Kovco's body back in four days'; if so, would such timing have coincided with ANZAC Day in Australia.
- (5) Did Brigadier Cosson state at paragraph 8 of her report, in relation to the mix-up of caskets that 'to accelerate the repatriation process within four days of his death is too short a timeframe within which to properly risk manage and execute a highly sensitive situation'; if so: (a) why was the process accelerated; and (b) on whose instruction.
- (6) Did Mrs Shelley Kovco, the widow of the deceased, state to the BOI on 19 September 2006 (Transcript of Proceedings, p. 1803) that the haste of repatriation was not at her request and that not once did she demand that her husband be brought home quickly; if so, does this statement rebut the suggestion that the hasty repatriation was undertaken for the sake of the grieving family.
- (7) Did Mrs Kovco also state that it was her belief that the hasty repatriation was that 'it would look good to have him back in the country on ANZAC Day'; if so: (a) has that claim been confirmed or denied to her directly; and (b) by whom.
- (8) In exhibit 164, was a statement made by Brigadier Symon that on 22 April 2006 the Chief of Army gave him 'guidance' that the body was to be brought home 'as quickly as I could'; if so, can the Chief of Army verify that 'guidance'.
- (9) Further in evidence at page 1402 (Transcript of Proceedings, 24 August 2006), did Brigadier Symon agree that getting the body of Private Kovco repatriated by ANZAC Day 'was a factor' in the repatriation of the body; if so, was it also a factor in removing the body from Baghdad prior to examination by the Special Investigation Branch officers.
- (10) At page 858 of the transcript of evidence (4 August 2006) did Soldier 34, as he was titled, agree that the pressure for hasty repatriation came from the chain of command; if so, what orders or instructions were extant at the time which might have given rise to what seems to be a commonly held perception, or was it a figment of Soldier 34's imagination.
- (11) At page 1135 of the transcript of evidence (16 August 2006) did counsel for Mrs Kovco refer to an affidavit by Lt Colonel Pearce, the Commanding Officer of the 1st Military Police Battalion to the effect that 'HQJTF ... had determined that the priority was for the return of the body by ANZAC Day and that they would risk manage the investigation'; if so: (a) can it also be confirmed that in evidence Lt Colonel Pearce did not resile from that evidence, apart from being unclear as to who provided it to her, including at page 1168; (b) have there been any subsequent investigations as to the source of the advice; (c) can the contents of that affidavit be confirmed; and (d) has that evidence been subsequently revised or retracted.
- (12) At page 1139 of the transcript of evidence (16 August 2006) did Major Pemberton agree with the proposition by counsel that 'there was also ... an understanding of political pressure to bring PTE Kovco home regardless of the lesson learned' from a previous death, namely the 'need to view the body as part of the incident scene', and did he clarify that political pressure as coming from the chain of command.

- (13) (a) Between the dates of 21 April and 25 April 2006 how many e-mail messages to and from the Chief of the Defence Force, the Chief of Army, Brigadier Symons, Brigadier Hallinan, Wing Commander Guerrin and Major Pemberton, as well as file notes and minutes on file, contained reference to the need to get Private Kovco's body back to Australia by 25 April 2006; and (b) how many of those included circulation to the Minister's office.

- (2) Does the Minister agree that: (a) this change is inconsistent with the department's responsibilities under the *Disability Services Act 1986*; and (b) the department should have sought the approval of Parliament to make a change that is so clearly inconsistent with its responsibilities under the *Disability Services Act 1986*.

- (9) What is the current level of unmet demand for advocacy assistance to persons with disabilities in Australia.

- (13) Does the department believe that systemic discrimination, abuse and neglect perpetrated on persons with disabilities have been eradicated from Australian life; if so: (a) how has this assessment been made; and (b) what conclusions have been drawn; if not, why is the department dismantling a service system established to challenge such discrimination, abuse and neglect.

- (2) Is the Ministers aware of the work of the Australian Securities and Investment Commission (ASIC) through the Assetless Administration Fund in cracking down on the systematic misbehaviour of company officers who deliberately avoided their responsibilities to creditors, including employees, who had missed out on entitlements due to their actions. (see ASIC Media Release 07-05 of 8 January 2007 *Phoenix crackdown reaps results*, ASIC Media Release 07-02 of 5 January 2007 *Nine directors banned* and ASIC Media Release 06-420 of 5 December 2006 *ASIC bans 9 directors*).

- (4) (a) Does the Office of Workplace Services (OWS) monitor the work of ASIC in relation to phoenix companies, including the Assetless Administration Fund and related enforcement programs; and (b) follow-up on matters related to it which may arise from the ASIC investigations.

- (1) Can the Minister confirm that the report of 13 December 2006 by the Australian Institute of Medical Scientists *Review of Australia's Blood Fractionation Arrangements*, found that competitive tendering and offshore fractionation of Australian donated blood plasma will undermine access to intravenous immunoglobulin (IVIg) by:

- (a) increasing the costs to the Australian health services in the regulation of plasma fractionated off shore;
 - (b) increasing the price of plasma due to increased international handling costs (e.g. transport, special storage and warehousing);
 - (c) reducing the amount of plasma available due to lower yields achieved by offshore fractionation technology;
 - (d) increasing the vein to vein time between donation of plasma and clinical use as a finished blood product;
 - (e) elevating the risk of disturbance of supply (transportation by shipping) the consequences of which are costly and highly disruptive; and
 - (f) undermining of the volunteer ethos of blood donation and the high regard in which the Australian Red Cross Blood Service is held.
- (2) Will the Government be adopting recommendation 10 of the Review which states: 'Australia should maintain its reservation regarding the procurement of blood fractionation services under the Australia - United States Free Trade Agreement. The reservation exempts the procurement of plasma fractionation services from the government procurement provisions in Chapter 15 of the Agreement. The CSL Act should also be maintained.'; if not: (a) why not; and (b) how will the Government ensure that access to intravenous immunoglobulin (IVIg) does not deteriorate by becoming more expensive, less available and less reliable.
- (3) What plans does the Government have to maintain and encourage volunteer blood donation.

*2984 **Senator Allison:** To ask the Minister representing the Minister for Defence—

- (1) What is the status of discussions between the Government and the North Atlantic Treaty Organisation (NATO) regarding the forging of a formal relationship.
 - (2) Does the Government support NATO's policy of nuclear first strike.
 - (3) Is the Government aware of the public opinion polling conducted by independent reputable companies, commissioned by a non government organisation, which reveals that close to 70 per cent of citizens in all six European countries hosting NATO nuclear weapons (Belgium, Germany, Italy, the Netherlands and Turkey) under NATO nuclear sharing arrangements wish them to be removed (Survey found at: <http://www.greenpeace.org/international/press/reports/nuclear-weapons-in-europe-survey>).
 - (4) If Australia does establish a formal relationship with NATO, will the Government raise concerns about how out of step the NATO nuclear sharing policy is with the democratic majority in European nations hosting nuclear weapons.

- (3) The Senate provides the following guidelines to be observed by committees in applying that resolution, and declares that the Senate will observe the guidelines in determining whether to refer a matter to the Committee of Privileges:
 1. Unless there are particular circumstances involving actual or potential substantial interference with the work of a committee or of the Senate, the following kinds of unauthorised disclosure should not be raised as matters of privilege:

- (a) disclosure of a committee report in the time between the substantial conclusion of the committee's deliberations on the report and its presentation to the Senate;
 - (b) disclosure of other documents prepared by a committee and not published by the committee, where the committee would have published them, or could appropriately have published them, in any event, or where they contain only research or publicly-available material, or where their disclosure is otherwise inconsequential;
 - (c) disclosure of documents and evidence submitted to a committee and not published by the committee, where the committee would have published them, or could appropriately have published them, in any event;
 - (d) disclosure of private deliberations of a committee where the freedom of the committee to deliberate is unlikely to be significantly affected.
2. The following kinds of unauthorised disclosure are those for which the contempt jurisdiction of the Senate should primarily be reserved, and which should therefore be raised as matters of privilege:
- (a) disclosure of documents or evidence submitted to a committee where the committee has deliberately decided to treat the documents or evidence as in camera material, for the protection of witnesses or others, or because disclosure would otherwise be harmful to the public interest;
 - (b) disclosure of documents prepared by a committee where that involves disclosure of material of the kind specified in paragraph (a);
 - (c) disclosure of private deliberations of a committee where that involves disclosure of that kind of material, or significantly impedes the committee's freedom to deliberate.
3. An unauthorised disclosure not falling into the categories in guidelines 1 and 2 should not be raised as a matter of privilege unless it involves actual or potential substantial interference with the work of a committee or of the Senate.
4. When considering any unauthorised disclosure of material in the possession of a committee, the committee should consider whether there was any substantive reason for not publishing that material.
- (4) Before deciding to raise a matter of privilege involving possible unauthorised disclosure of committee proceedings, any committee may seek the guidance of the Committee of Privileges as to whether a matter should be pursued. If the committee decides that such a matter should be raised, it must consult with the Committee of Privileges before taking the matter further.
- (5) When applying this resolution a committee shall have regard to the matters set out in paragraphs 3.43 to 3.59 of the 122nd Report of the Committee of Privileges, June 2005.

A GUIDE TO THE NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

Matters of privilege take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to uncompleted debates on such motions.

Business of the Senate has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business is business initiated by a minister. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

Notices of motion are statements of intention that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records in full current items of business of the Senate and government business, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

Orders of the day relating to committee reports and government responses follows government business and lists orders of the day for adjourned debates on motions to consider or adopt committee reports and government responses which have been presented during the week. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Orders of the day relating to government documents appears in general business and lists orders of the day for adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

Business for future consideration lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Bills referred to committees lists all bills or provisions of bills currently being considered by committees.

Questions on notice includes the text of new questions on notice and lists the numbers of unanswered questions.

Orders of the Senate includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

Contingent notices of motion are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

Temporary chairs of committees is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

Categories of committees is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

Committees lists all of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

Senate appointments to statutory authorities lists the statutory authorities on which the Senate is represented and details of representation.

Ministerial representation lists Senate ministers and the portfolios they represent.

The ‘full’ Notice Paper

On the first day of each period of sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full online version of the *Notice Paper*, available on ParlInfo and on the Senate’s Internet site at aph.gov.au/senate.

Inquiries concerning the *Notice Paper* or business listed in it may be directed to the Senate Table Office on (02) 6277 3018.
