## GENERAL BUSINESS

### Notices of Motion

*Notice given 13 February 2008*

- 18 **Leader of the Opposition in the Senate (Senator Minchin):** To move—That the Senate—
- (a) notes:
- (i) the contempt in which the Australian Labor Party (ALP) has historically held upper houses around the country, including a platform to abolish all upper houses until 1979, the abolition of the upper house in Queensland and a current policy to abolish the South Australian Legislative Council,
  - (ii) that the Prime Minister (Mr Rudd) has reduced the number of sitting weeks in the Senate in 2008, and
  - (iii) that the Deputy Prime Minister (Ms Gillard) has already demanded legislation be passed without adequate scrutiny in the Senate; and
- (b) given the above, condemns the Rudd Labor Government for continuing the ALP's legacy of inherent contempt for the Senate.

*Notice given 11 March 2008*

- 29 **Leader of the Australian Democrats (Senator Allison):** To move—That there be laid on the table by the Minister representing the Minister for Education, no later than 4.30 pm on Thursday, 20 March 2008, a copy of the Department of Education, Science and Training review of private school funding report.
- 37 **Leader of the Australian Democrats (Senator Allison):** To move—That the Senate—
- (a) notes:
- (i) that Amnesty International, CARE International UK, CAFOD, Christian Aid, Medecins du Monde UK, Oxfam, Save the Children UK and Trocaire, in the week beginning 2 March 2008 said that the humanitarian situation in the Gaza Strip is now worse than it was at any time since Israel occupied the Palestinian territories in 1967,
  - (ii) that those organisations in the week beginning 9 March 2008 described Israel's blockade of Gaza as a collective punishment of the entire Gazan population of 1.5 million and said it was unacceptable and illegal,
  - (iii) that the situation has worsened since Israel imposed the severe restrictions over the Gaza Strip and hindered the movement of residents and goods,
  - (iv) that poverty levels in the Gaza Strip are rising and that hospitals are suffering 12 hour power cuts each day while water and sewage systems are close to collapse,

- (v) that the United Nations (UN) emergency relief coordinator in Gaza says medical services are deteriorating, private industry has more or less collapsed, hospitals lack sufficient beds, drugs, resuscitation devices, needles and blood to meet the demand and more than 80 per cent of the population are receiving emergency rations from UN agencies as their main source of food,
  - (vi) that 40 per cent of the Gaza population has access to water for only a few hours a day and that municipal authorities lack the fuel and spare parts needed to maintain water delivery infrastructure which could collapse at any time and that 40 million litres of raw or partially-treated sewage is being pumped into the Mediterranean Sea every day with long-term risks to the environment, and
  - (vii) that the International Save the Children Alliance advised that hundreds of thousands of children are among those most at risk in the crisis in Gaza with increased levels of chronic disease, anaemia, diarrhoea and malnutrition in children under 5 years of age;
- (b) urges the Government to work with the international community and parties to the conflict to, as a matter of urgency:
- (i) establish procedures to manage the crossings and re-establish full humanitarian and commercial access to Gaza,
  - (ii) enforce the full implementation of the 2005 Agreement on Movement and Access, which was announced by the United States Secretary of State, Condoleezza Rice, in Jerusalem on 15 November 2005,
  - (iii) develop a strategy that ensures the protection of children and other civilians in Gaza, while negotiations continue for an end to the violence and a comprehensive settlement of the conflict, and
  - (iv) increase the levels of humanitarian aid in Gaza to reflect the severity of need; and
- (c) considers that celebrating the 60th anniversary of Israel's statehood should not be interpreted as endorsement of action that gave rise to such crises or approval of the failure to deliver peace and a separate state for Palestinians, an objective that appears less likely now than at any time in the past 60 years.

41 **Leader of the Australian Greens (Senator Bob Brown):** To move—That the following bill be introduced: A Bill for an Act to amend the *Commonwealth Electoral Act 1918* to repeal provisions relating to group voting tickets and provide for preferential above-the-line voting, and for related purposes. *Commonwealth Electoral (Above-the-Line Voting) Amendment Bill 2008*.

*Notice given 18 March 2008*

55 **Leader of the Australian Democrats (Senator Allison):** To move—That the Senate—

- (a) notes the comments by the Minister for Education (Ms Gillard) that she is considering extending the Federal Government's method of funding private schools on a socioeconomic basis to the public school system;
- (b) recognises the limitations of this model, as evidenced by the fact that 51 per cent of non-government schools receive more money than they are entitled to on the basis of their socioeconomic status (SES) score and that many issues affect the resourcing needs of schools, aside from socioeconomic status; and

- (c) urges the Government to commit to ensuring that any changes to funding models for public schools:
  - (i) guarantee that no school will lose money, as was promised when the SES model was introduced for private schools funding,
  - (ii) takes into account the proportion of students who have special learning needs as a result of:
    - (A) intellectual or physical disabilities,
    - (B) learning difficulties or disabilities,
    - (C) a language background other than English,
    - (D) Aboriginal or Torres Strait Islander background,
    - (E) geographic isolation, and
    - (F) disruptive behaviour, and
  - (iii) raise the level of per capita funding for primary schools to that of secondary schools in recognition of the importance of early learning.

*Notice given 19 March 2008*

- 63 **Leader of the Australian Greens (Senator Bob Brown):** To move—That the Senate calls on the Minister for Foreign Affairs (Mr Smith) to seek the abandonment of the death sentence in China.

*Notice given 20 March 2008*

- 64 **Senator Milne:** To move—That the Senate—

- (a) notes that:
  - (i) in March 2005, at the 5th Ministerial Conference on Environment and Development (MCED) held in Seoul, representatives from 52 member and associate member countries of the United Nations Economic and Social Commission for Asia and the Pacific (UNESCAP) embraced the approach of Environmentally Sustainable Economic Growth (Green Growth),
  - (ii) a green growth approach requires that environmental and ecological consideration must be integral to policy planning to ensure long-term economic and social viability, and economic growth should not be measured in gross domestic product alone but also in a set of eco-indicators,
  - (iii) the MCED adopted a Regional Implementation Plan for Sustainable Development in Asia and the Pacific 2006-2010 and the Seoul Initiative on Sustainable Economic Growth (Green Growth),
  - (iv) UNESCAP's member and associated countries have repeatedly confirmed their commitment to green growth since 2005 and have requested that the UNESCAP Secretariat continue to act as a catalyst for a conducive environment for green growth through developing the conceptual and analytical framework and by providing capacity building support to governments,
  - (v) the green growth approach has become prominent in the region and has received highest political acceptance by heads of state of UNESCAP member states and, in February 2008, the Secretary-General of the United Nations noted that the world is on the cusp of 'the age of green economics', and

- (vi) Australia signed the regional implementation plan but has since failed to attend green growth policy dialogues and Seoul Initiative Network on Green Growth forums; and
  - (b) calls on the Government to:
    - (i) immediately re-engage with UNESCAP's initiatives to promote green growth principles in our region, and
    - (ii) send delegates from the Department of the Treasury and the Department of the Environment, Water, Heritage and the Arts to future relevant meetings.
- 65 **Leader of the Australian Greens (Senator Bob Brown):** To move—That the Senate calls on the Prime Minister (Mr Rudd) and future Prime Ministers to refrain from engaging Australia in war without first gaining the agreement of the Australian Parliament.
- 66 **Leader of the Australian Greens (Senator Bob Brown):** To move—
- (1) That so much of standing orders be suspended as would prevent this resolution having effect.
  - (2) That the Plastic Bag Levy (Assessment and Collection) Bill 2002 be restored to the *Notice Paper* and that consideration of the bill resume at the stage reached in the 40th Parliament.
- 67 **Leader of the Australian Greens (Senator Bob Brown):** To move—That the Senate calls on the Minister for Foreign Affairs (Mr Smith) to seek the abandonment of the death sentence, including that on Australian citizen Ms Jasmine Luong in Vietnam.

*Notice given 13 May 2008*

- \*68 **Leader of the Australian Democrats (Senator Allison):** To move—That the Senate—
- (a) notes the findings of the Court of Appeal in overturning a decision of the Victorian Civil and Administrative Tribunal which had granted approval to the Romsey Hotel to install gaming machines, stating:
 

‘... if the approval of gaming at particular premises is likely to cause unhappiness or discontent in that community (or any part or parts of it), that consequence is a “social impact of approval” which will be “detrimental to the well-being of the community”. It will be detrimental to well-being because it diminishes the citizens’ sense of happiness with, or contentment in, their community’, and

‘the fact that the ... Act *allows* gaming to occur in approved premises does not mean that any Victorian community is *obliged* to accept gaming machines’;
  - (b) recognises that the interests of any community must precede the commercial interests of approved premises and that of governments that derive revenue from the operation of gambling machines; and
  - (c) calls on the Government to urge all state and territory governments to recognise the right of local communities, through their councils, to reject applications for poker machine venues in their municipalities.

**\*69 Leader of the Australian Democrats (Senator Allison):** To move—That the Senate—

- (a) calls on the Government to work with state and territory governments to close the gap between school sectors on access to music education; and
- (b) recognises that:
  - (i) playing music:
    - (A) builds or modifies neural pathways related to spatial reasoning tasks, which are crucial for higher brain functions like complex maths, chess and science,
    - (B) improves concentration, memory and self expression,
    - (C) increases reasoning capacity, time management and the ability to think in the abstract, and
    - (D) improves the ability to think,
  - (ii) learning music helps underperforming students improve, and
  - (iii) music students learn critical teamwork and social skills.

**\*70 Leader of the Australian Democrats (Senator Allison):** To move—That the Senate—

- (a) notes that:
  - (i) the Danish Parliament approved in February 2008 a pilot medical scheme to prescribe heroin to 500 of Denmark's most seriously addicted and marginalised citizens,
  - (ii) heroin is to be prescribed in combination with methadone with the aim of rehabilitation and to reduce the criminal activity of addicts,
  - (iii) prescription heroin for treatment of severe cases of addiction exists as a therapeutic option in the United Kingdom, Switzerland and the Netherlands and is being established in Germany, and
  - (iv) trials of prescribing heroin for the treatment of opiate dependency in Spain and Canada also show favourable results; and
- (b) encourages the Government to closely monitor this and other pilot programs and to consider conducting a similar project in Australia.

**\*71 Leader of the Australian Democrats (Senator Allison):** To move—That the Senate—

- (a) notes the Government's pre-election promise of a \$75 million 'Debt2Health' swap with Indonesia which would allow Indonesia to benefit from additional funding from the Global Fund to Fight AIDS, TB and Malaria; and
- (b) urges the Government to significantly increase overseas aid funds for the treatment and prevention of tuberculosis.

**\*72 Leader of the Australian Democrats (Senator Allison) and Senator Murray:** To move—That the Senate—

- (a) notes the report by CHOICE on charities, published online in March 2008, that highlights the wide variability and inconsistency in the way that charities disclose information to the public;
- (b) acknowledges that the 27 recommendations from the inquiry into the definition of charities and related organisations, which reported in 2001, have not been implemented; and

- (c) calls on the Government to:
  - (i) establish a single, appropriate regulator of the charity sector, and
  - (ii) work with the regulator to improve reporting and accountability standards in the charitable and not-for-profit sector.

**\*73 Leader of the Australian Democrats (Senator Allison):** To move—That the Senate—

- (a) notes:
  - (i) the recent research done by the Cancer Council of New South Wales indicating that 70 per cent of top box office films contained depictions of smoking, including 75 per cent of the most popular PG-rated films,
  - (ii) the research by the American Lung Association showing that more than two-thirds of the top 50 United States of America box office films of 2004-05 classified for children's viewing depicted smoking, some with as many as 14 depictions of smoking an hour,
  - (iii) that positive depictions of smoking in films normalise and promote smoking, particularly for young people, and that on-screen smoking influences children's attitudes and behaviour to the extent that it can increase a child's chance of becoming a smoker later in life, and
  - (iv) that evidence overseas shows that the tobacco industry has provided inducements for such positive depictions of smoking and that this is not consistent with the objectives of the *Tobacco Advertising Prohibition Act 1992*; and
- (b) urges the Government to heed the latest call by the Australian Medical Association and adopt strategies and regulatory measures to counter the influence of smoking in films, including:
  - (i) a film classification system that provides clear warnings about the extent and nature of smoking in films with films attracting an appropriate descriptor such as 'pervasive smoking' in the same way that descriptors warn of coarse language, sexual references, nudity and violence,
  - (ii) anti-smoking announcements before films that depict smoking, and
  - (iii) changes to guidelines to ensure that public funds are not used to support Australian films that glamorise or promote smoking.

**\*74 Senator Siewert:** To move—That the Senate—

- (a) notes that the week beginning 12 May 2008 is National Volunteer Week, which celebrates the contribution of Australia's 5.4 million volunteers who annually contribute an estimated 700 million hours of unpaid work;
- (b) acknowledges the role of volunteers in supporting the Australian economy and enriching Australian society in their work as carers, counsellors, educators, sporting coaches, school canteen workers, and through their participation in a wide range of community organisations; and
- (c) calls on Australian governments to:
  - (i) ensure that volunteers have legal status and are properly protected by workplace-related legislation, and
  - (ii) support volunteers by addressing the barriers to their participation in voluntary activities.

- \*75 **Senators Hutchins and Forshaw:** To move—That the Senate—
- (a) notes with great sadness the passing of ‘supercoach’ Mr Jack Gibson, OAM, one of Australia’s greatest rugby league coaches, on 9 May 2008;
  - (b) recognises and applauds the tremendous contribution that he made to Australian sport and his achievements as a rugby league player, coach and commentator;
  - (c) notes his success in winning five premierships as a first grade coach – back to back victories with Eastern Suburbs in 1974 and 1975 and three in a row with Parramatta between 1981 and 1983;
  - (d) notes his significant and commendable work with charitable organisations; and
  - (e) expresses its deep and sincere condolences to his family and the rugby league community.
- \*76 **Leader of the Opposition in the Senate (Senator Minchin):** To move—That the Senate—

- (6) Does SBS television broadcast any English lesson programs aimed at new immigrants; if so, how many hours a week and in what time slots.
- (7) In 2007, which programs were televised with breaks inserted by SBS in the circumstances where, those programs when supplied to SBS in their original format had not been produced, assembled or compiled with provision for any commercial breaks, such as British Broadcasting Corporation programs or cinema-release movies etc.
- (8) Given that the 2006 SBS 'Codes of Practice' makes no provision for a person to dispute the SBS interpretation of a 'natural break' by way of a formal complaint, and that section 5 of the code refers the placement of breaks to the 'Guidelines for the Placement of Breaks in SBS Television Programs' and also that under section 8 of the code, SBS is only required to respond to a formal complaint made under the code and not under the guidelines: how does SBS deal or propose to deal with: (a) complaints about a program being interrupted for a commercial break; and (b) objections to the SBS interpretation of a 'natural break'.
- (9) Why is the definition of 'natural break' in the guidelines different from the definition in the *Special Broadcasting Service Act 1991*.
- (10) In relation to natural breaks are there any instances where guidelines 1.1 to 1.8 and 1.10 have been over-ridden by guideline 1.9; if so, can details be provided.
- (11) Is it the case that complaints concerning natural breaks cannot be made to the Australian Communications and Media Authority; if so, why.
- (12) Can details be provided of informal and formal complaints received by SBS in 2007 that related specifically to advertising and the interruption of programs for commercial breaks; if so, in each instance, what was the response by SBS, including those lodged as formal complaints but not recognised as such by SBS.
- (13) For the 12 months to 31 December 2007, how much revenue did SBS receive from all television advertising.
- (14) How much revenue did SBS receive from federal and state government advertising on SBS television for the 12 months to: (a) 31 December 2006; and (b) 31 December 2007.
- (15) If SBS was to stop interrupting programs for advertisements in 2008 and run commercials between programs only, as used to be the case until late 2006, what would be the estimated decrease in revenue, if any, from the 2007 level of revenue.
- (16) If SBS was to stop interrupting programs for advertisements and run advertisements between programs only, as used to be the case until late 2006, how much government funding, in dollar terms and in percentages of federal government funding for SBS, would be required to maintain current SBS operations for the next 12 months.

- (17) How much extra funding in dollar terms and in percentages of federal government funding for SBS would be required for the next 12 months in order to drop advertising completely.
- 100 **Senator Allison:** To ask the Minister representing the Minister for Veterans' Affairs—Will the Government consider awarding Gold Cards to allied merchant seamen who served during World War II and who currently receive a services pension with a health condition; if not, why not.
- 109 **Senator Allison:** To ask the Minister representing the Minister for Foreign Affairs—
- (1) Does the Government stand by its commitment to support a nuclear weapons convention, made on 14 August 2007 by the then Shadow Minister for Foreign Affairs Mr Robert McClelland in a speech to the United Nations Association.
  - (2) Does the Government still consider the idea of a nuclear weapons convention as 'responsible and timely'; if so, to what extent and in what manner.
  - (3) Will the Government support moves to implement a nuclear weapons convention in the terms suggested by the Middle Powers Initiative and the updated model nuclear weapons convention, adopted by the United Nations (UN) General Assembly as a discussion document in December 2007.
  - (4) In detail, what is the Government's response to the updated model nuclear weapons convention, tabled by Malaysia and Costa Rica in the UN General Assembly Plenary in December 2007.
  - (5) Will the Government proceed with the creation of a new Canberra Commission, as promised by the Prime Minister (Mr Rudd) prior to the 2007 election; if so, when.
  - (6) (a) Is the Minister aware that a key recommendation of the original Canberra Commission was the lowering of the operational readiness of nuclear weapons systems; and (b) how has the Government decided to respond to that recommendation and to recommendation 17 of the final report of the Weapons of Mass Destruction Committee, chaired by Dr Hans Blix and tabled on 1 June 2006, to the same effect.
  - (7) Does the Government consider the UN resolution 'Renewed determination toward the total elimination of nuclear weapons' (the renewed determination) to be an appropriate response.
  - (8) In regard to the more recent resolution L.29 on decreasing the operational readiness of nuclear weapons system, co-sponsored by New Zealand, Chile, Nigeria, Sweden and Switzerland: (a) in what way does it differ from the renewed determination; (b) why did Japan, a co-sponsor of the renewed determination, vote in favour of L.29; (c) were there any reasons, other than the exigencies of time, for the incoming Government not to have voted in support of resolution L.29 on operating status as Japan, Germany, Austria, Spain, Portugal, Italy, Iceland, Ireland, Norway, Finland, Sweden, and New Zealand did; (d) what is the reaction of the Government to the passage of that text by the UN General Assembly in a vote of 136 to 3; (e) why did the three nations, with whom Australia so frequently votes, vote for this resolution while Australia abstained; (f) why was this abstention maintained in the UN General Assembly Plenary; (g) from which non-government organisations did the Government receive correspondence suggesting that it ought to change its vote in the Plenary; and (h) is there anything in the text

of resolution L.29 that is, or could be interpreted as being, in any way destabilising; if so, what constructive changes might be made to the resolution.

- (9) Will the Government try to advance the issue of nuclear weapons operating status: (a) at the 2008 Nuclear Non-Proliferation Treaty Preparatory Committee (NPT PrepCom); (b) at the next UN General Assembly First Committee; and/or (c) in its discussions with the United States of America and/or Russia.
- (10) Will the Government consider working together with: (a) New Zealand, Chile, Nigeria, Sweden and Switzerland at the NPT PrepCom to write a working paper on nuclear weapons operational status; (b) the New Agenda group, both on this issue and more widely on nuclear disarmament issues at the NPT PrepCom; and (c) the New Agenda and the Non-Aligned Movement groups, as well as the western groups and the nuclear weapons states, to promote ongoing progress in nuclear disarmament and strategic stability both via the measures set out in the final report of the Year 2000 NPT review and in the renewed determination, and via a lowering in nuclear weapons operational readiness.
- (11) What further steps will the Government take towards: (a) lowering nuclear weapons operational readiness; and (b) bringing the world closer to the creation and implementation of a nuclear weapons convention, along the lines of the updated model convention submitted to the UN General Assembly Plenary.

269 **Senator Murray:** To ask the Minister representing the Treasurer—

- (1) What costs would be incurred and what ramifications are there if the administration of the Medicare Levy surcharge was adjusted to ensure that it affects or is calculated for same-sex couples on the same basis as mixed-sex couples.
- (2) In view of the Prime Minister's statements in favour of ending discriminatory provisions, does the government intend to address this deficiency.

270 **Senator Murray:** To ask the Minister representing the Treasurer—

- (1) With reference to the former Treasurer's statement of 27 June 2007 on the release of the 2006 census information that 'the Census forms the basis for our electoral system, the provision of services and policy to meet the challenges that we face': does this mean that the effects of fly-in and fly-out workers who record their domicile elsewhere, or of transient/tourist numbers, will not be sufficiently taken into account for the provision of services in shires such as Roebourne and Wyndham East Kimberley; if not, how are fly-in fly-out or transient/tourist requirements factored in.
- (2) Given that, according to the recently released Australian Bureau of Statistics (ABS) census figures, in the Kimberley Region, between 2001 and 2006, the population of Broome has risen by only 1.8 per cent, or 1 240 people, and in the Shire of Wyndham East Kimberley, by just 0.4 per cent, or 133 people: (a) why do these figures differ from the shires' views as to significant real population growth; and (b) how were these figures arrived at, given, for instance, that school student numbers, a good indicator of permanency, in the region have risen by more than this amount in absolute terms (e.g. at Kununurra District High School, by at least 13 per cent).
- (3) Do census collectors obtain accurate figures from Indigenous communities in the Kimberley; if not, what is the degree of error.
- (4) Has the ABS investigated its figures to determine how such apparent small rises in overall population in the Kimberley can be possible, given the rise in housing demand and construction in these areas since the 2001 census and the overall increase in numbers of children enrolled in the local schools, in some areas, up at least 10 per cent.
- (5) Given that, according to an ABS seminar in Kununurra in 2007, the community was advised that the figures for the 2006 census were collated based on 'place of enumeration' while the method used in the 1996 census and the 2001 census was 'usual place of residence': (a) what impact has this change had on the census outcome; and (b) have Australians still continued to identify their usual place of residence (e.g. Perth) rather than place of enumeration (e.g. Argyle Mine).
- (6) Can the Treasurer confirm that any funding allocations from the Commonwealth, which are aligned to population numbers based on the census, will take into account other factors, such as housing demand and school enrolments in the East Kimberley, when considering funding allocation.

- 281 **Senator Webber:** To ask the Minister representing the Treasurer—Are banks with an Australian banking licence permitted to hold data or records on accounts in associated banks or subsidiaries domiciled in known tax havens.
- 283 **Senator Webber:** To ask the Minister representing the Treasurer—
- (1) Did the Australian Prudential Regulation Authority (APRA) ever place any restrictions, formally or informally, on Mr Murray Nugent or the companies he was involved with, specifically Reward Insurance Ltd and Australian Home Warranty Pty Ltd, on writing licensed builder home warranty insurance (LBHWI) from 1 July 1999 onwards.
  - (2) Can the Minister confirm that Mr Nugent continued to write LBHWI through Rewards Insurance Ltd after 1 July 1999.
  - (3) Can the Minister confirm that APRA has the power to disqualify an individual from holding roles within the Australian insurance industry; if so, why has APRA never moved to disqualify Mr Nugent from operating in the insurance industry.
  - (4) If Reward Insurance Ltd was under the minimum capital requirements for insurance companies from 2001 onwards, why did not APRA shut the company down.
  - (5) Can an outline be provided of all investigations, recommendations and directions undertaken and instigated into Reward Insurance Ltd since 1999 by: (a) APRA; and (b) the Australian Securities and Investments Commission (ASIC).
  - (6) Can the Minister confirm that investigations by APRA and ASIC into Reward Insurance Ltd and Mr Nugent have stalled since May 2005; if so, why.

  - (2) (a) What other health professionals will be employed in the superclinics; and (b) will they be employed on a fee-for-service or salaried basis.
  - (3) Will the superclinics employ nurse practitioners; if so: (a) what role will they play; (b) what services will they provide; and (c) how will they be remunerated.
  - (4) What incentives will be offered to encourage the use of preventative services in the superclinics.

- 303 **Senator Kemp:** To ask the Minister representing the Minister for Foreign Affairs—Can a coordinated time series be provided of all expenditure, grants and membership subscriptions, made by every government department and agency to the United Nations (UN), UN agencies and UN-associated entities (including peacekeeping operations) for the past 4 financial years, indicating the expenditures made by each department and agency and the UN agency or association that received it (including all regular budget, extra-budgetary and peacekeeping expenditure).
- 304 **Senator Kemp:** To ask the Minister representing the Minister for Foreign Affairs—Can a coordinated table be provided of all expenditure, grants and membership subscriptions, made by every government department and agency to the United Nations (UN), UN agencies and UN-associated entities (including peacekeeping operations) for the past financial year, indicating the expenditures made by each department and agency and the UN agency or association that received it (including all regular budget, extra-budgetary and peacekeeping expenditure).
- 305 **Senator Allison:** To ask the Minister representing the Minister for the Environment, Heritage and the Arts (*transferred to the Minister representing the Minister for Finance and Deregulation on 19 March 2008*)—With reference to the reduction of the Government vehicle fleet by 1 500 vehicles since 2001:
- (1) How was this reduction achieved.
  - (2) Are efforts being made to achieve further reductions; if so, what are these efforts.
- 308 **Senator Allison:** To ask the Minister representing the Minister for Veterans' Affairs—Can the following details be provided for each of the compensation payments made to Australian veterans since 1996: (a) the date of the payment; (b) the payment amount; (c) the nature of the compensable injury; (d) the legislative vehicle through which payment was effected; (e) whether the case was the subject of appeal and the out of that appeal; and (f) the cost of legal services associated with the case.

*Notice given 4 March 2008*

- 344 **Senator Allison:** To ask the Minister representing the Minister for Resources and Energy—Given: (a) the announcement of the then Minister for the Environment and Water Resources on 20 February 2007 that conventional, incandescent light bulbs are to be phased out over the next 3 years and replaced with energy-saving globes; (b) the release of a discussion paper on 17 December 2007 on the proposed phase-out of incandescent bulbs and a minimum energy standard of 15 lumens per watt by 2010 and 20 lumens per watt by 2013; (c) that market-proven compact fluorescent lamps (CFLs) represent more than 15 per cent of the market share, with sales increasing rapidly and exponentially; (d) that CFLs are typically 60 lumens per watt, which is four times more efficient than the cut-off threshold proposed in the discussion paper; (e) that the additional benefits of high efficiency lighting are the energy savings and longer lifetime; and (f) that compared to incandescent lamps, high efficiency lighting saves in the order of \$50 to \$100 over its lifetime, has, on average, a 3 year payback and delivers a very competitive greenhouse abatement cost of \$3 per tonne:

- (1) What policy options, other than the Minimum Energy Performance Standards (MEPS), were considered.
- (2) Was a simplified energy label, supported by government promotion of high efficiency lighting solutions or rebates for efficient lamps, considered.
- (3) What role did industry play in forming this standard.
- (4) Given that setting a higher MEPS level and faster timetable or faster MEPS would be consistent with the Minister's policy objectives, why is a lower and slower MEPS being implemented.

348 **Senator Allison:** To ask the Minister for Climate Change and Water (*transferred to the Minister representing the Minister for the Environment, Heritage and the Arts on 26 March 2008*)—Given that: (a) the transport and stationary energy sectors are the largest greenhouse emitting sectors in Australia; (b) the stationary energy and other sectors have much less capacity for reductions than the transport sector; (c) motor vehicles are responsible for approximately 80 per cent of transport emissions, with public transport responsible for 3 per cent; (d) with oil approaching \$US100 a barrel, demand for mass transport has risen by 20 per cent since the beginning of 2007 and is likely to rise another 10 per cent in 2008:

- (1) What plan is in place to achieve cuts from the transport sector by 2010.
- (2) What strategic direction has been provided to state governments in line with stated greenhouse emission cuts.
- (3) What strategic direction and actions are being taken to develop alternative fuels.
- (4) What plans are there to abolish tax concessions and subsidies for road transport.

353 **Senator Allison:** To ask the Minister representing the Minister for the Environment, Heritage and the Arts (*transferred to the Minister for Climate Change and Water on 5 March 2008*)—

- (1) With reference to media reports that, since the commencement of Murray Darling Basin permanent water allocation trading, the cost of permanent water allocations has risen by 2 000 per cent over the past 2 years, what is the trend and the cost increase since the commencement of water trading.
- (2) Acknowledging that trading occurs within the confines of the basin cap, to what extent is water trading increasing or decreasing the demand on the river relative to the cap.
- (3) What is the incidence of 'sleeper' water allocations (that is, water allocations that have been inactive or underutilised coming to market), water theft, evaporation and other losses that increase the demand on the river and that have otherwise not been accounted for.
- (4) What compliance measures are being considered to enforce allocations or adjust for unanticipated losses.
- (5) (a) Has there been any purchase of permanent water allocations for the environment; (b) what has been the level of these purchases; (c) have they been purchased from the market; (d) were they purchased from willing sellers; and (e) how is it ascertained that these sellers were willing.
- (6) What is the trend of water allocations being traded from grazing, farming or horticultural enterprises to managed investment schemes.
- (7) What level of trading is occurring between districts or between states.
- (8) What coordination is there between state governments.

- (9) What is the level of participation of non-water users (speculative investors, state governments or others) within the market.
- (10) What level of regulation applies to the water market.
- (11) What review has been undertaken of the workings of the water market.
- (12) Has there been any analysis of the financial impact, including the ability to pass on costs to end users by farming type (for example, graziers, dairy farmers, horticulturists).
- (13) (a) What assistance to farmers and communities experiencing hardship due to water price increases, reduced water allocations or a loss of productive farming capacity is being progressed; and (b) could this include interest rate relief, income support and/or walk-off and adjustment packages.
- (14) What partnership programs, between government and farmers, exist for the transition to lower water use practices, infrastructure improvement or other drought-proofing activities.
- (15) If it is commonplace for markets, such as the energy market, to be regulated or administered, has the appointment of a regulator of the water market with responsibility to administer, oversee and intervene in the market to achieve economic and community, social and environmental outcomes and with the power to suspend or restrict trading, prevent profiteering or speculation by non-water users, determine carryover, water banking provisions and emergency water supply measures and make all decisions transparent and in full consultation with state governments and stakeholders been considered.

*Notice given 7 March 2008*

359 **Senator Allison:** To ask the Minister representing the Minister for Health and Ageing—

- (1) With reference to the current reassessment by the Medical Services Advisory Committee (MSAC) of its advice concerning the funding of Positron Emission Tomography (PET) for melanoma, colorectal and ovarian cancer, have the MSAC recommendations for public funding for these indications been received by the Minister; if so, what is the timeline for approval by the Minister.
- (2) With reference to the advice provided by Mr Kingdon, First Assistant Secretary of the Medical Benefits Division, during an additional estimates hearing of the Community Affairs Committee that the 2007 recommendations 'went through an earlier process, but because we had an intervening election we had to restart again' (Committee *Hansard*, 20 February 2008, p. 59P), why was it necessary to 'restart again' and what bearing did the election have on the advice provided.
- (3) Given that the MSAC's website indicates assessments will be completed in 56 weeks, yet the MSAC had already assessed these indications in 2000 or 2001 and the MSAC signed off on the protocols used for collecting the data that was presented for review in 2006, why did the reassessment of these indications take essentially the same length of time as normal assessments.
- (4) On what dates were these indications considered by the MSAC and the MSAC Advisory Committee meetings.

- (5) With reference to the proposed reassessment by the MSAC of evidence concerning the funding of PET for sarcoma, lymphoma, brain tumours and oesophageal, head, neck and cervical cancers: (a) has the data on all these indications been collected; (b) where data has been collected, which indications are currently being considered by the MSAC; and (c) when will the MSAC's advice be provided to the Minister.
- (6) Will the MSAC be preparing advice concerning the funding of PET for: (a) indications included under the current ministerial determinations but where data collection protocols have not been developed; (b) sub-groups of patients included within the current indications but not evaluated by the data collection protocols, for example, high grade lymphoma and Hodgkins disease; and (c) indications that have not been previously considered by the MSAC, such as breast cancer, the evaluation of lung cancer patients after primary treatment, therapeutic monitoring and tumours in childhood and infancy.
- (7) In each case referred to in paragraph (6), if not, why not.
- (8) If it is the case that the Government does not normally fund projects like the current PET data collection: (a) what is the estimated cost of such data collection (not including the cost of the PET scans); (b) what unique data has been provided by the collection process; (c) is it the case that the data collection protocols did not include a methodology for assessing costs and effectiveness; if so, why, given the fact that the MSAC's original assessment of PET did not find sufficient evidence to draw conclusions about the clinical or cost effectiveness of PET.

360 **Senator Allison:** To ask the Minister representing the Minister for Health and Ageing—

- (1) How many new surgical procedures have been put to the Medical Services Advisory Committee (MSAC) for consideration since 2004.
- (2) (a) Of these procedures, how many have been recommended by the MSAC to the Minister for funding; and (b) of these recommended procedures: (i) how many have been approved, and (ii) which procedures have not been approved.
- (3) (a) Which surgical procedures remain to be assessed by the MSAC; and (b) of these procedures, which have been with the MSAC for more than 16 months and what are the reasons for the lack of progress on the assessments.

369 **Senator Nettle:** To ask the Minister representing the Prime Minister—

- (1) At any point during the recent Asia-Pacific Economic Cooperation (APEC) forum, in Sydney, were the spouses of the APEC leaders transported by a coach with a parquet floor; if so: (a) where did the coach come from and how was it transported to Sydney; (b) why was it deemed necessary for the leaders' spouses to be transported in this manner; and (c) who made the decision about what level of luxury the leaders' spouses would travel in.
- (2) What were the costs and the greenhouse gas emissions associated with the transport of the coach to Sydney.
- (3) Can descriptions be provided of the other features of the vehicles that the leaders' spouses travelled in.

Notice given 17 March 2008

- 373 **Senator Allison:** To ask the Minister representing the Minister for the Environment, Heritage and the Arts—Given: (a) the disturbing trend of state governments taking water from agriculture and the environment and diverting it into wasteful urban areas, in preference to adopting lower cost urban water efficiency and demand management activities, occurring at a net loss to the economy through loss of productive farming capacity and consequently increased costs of agricultural products; (b) the study submitted by the Institute for Sustainable Futures to the Rural and Regional Affairs and Transport Committee's inquiry into options for additional water supplies for south east Queensland, *Review of water supply-demand options for South East Queensland*, which found that water savings from demand management activities could deliver an additional 230 billion litres of water each year at a cost of \$1.15 per kilolitre, which is less than the estimated cost (between \$3.38 and \$4.65 per kilolitre) of the proposed Traveston Crossing Dam, which will only deliver 70 billion litres; and (c) that a kilolitre of water used in agriculture has more potential for value adding than a kilolitre of water used inefficiently in the urban environment and that aggressive water efficiency and harvesting for urban use is cheaper and less environmentally damaging than supply options, such as the Traveston Dam in south east Queensland and the desalination project at Wonthaggi, Victoria:
- (1) What benchmarks and assessment of water have been undertaken.
  - (2) (a) What assessment of water-saving potential has been undertaken; and (b) what is the current market, technological and theoretical water efficiency for Australian cities.
  - (3) How would such analysis inform water efficiency targets.
  - (4) What water efficiency targets are being considered.
  - (5) How will the analysis and the targets inform a national water policy.
  - (6) How would targets be implemented and achieved.
  - (7) What priority has the Government to ensure a best practice approach to delivering aggressive water efficiencies and secure sustainable long-term water supplies for urban areas.
  - (8) Have the recommendations of the report of the Environment, Communications, Information Technology and the Arts References Committee, *The value of water – inquiry into Australia's management of urban water*, tabled on 5 December 2002, been considered for adoption.
  - (9) With reference to the Australian Labor Party's election statement that there is to be an allocation for urban water efficiency, what is the implementation plan and the timeline for this.
  - (10) (a) What partnerships with state government, local government and manufacturers of water efficient appliances are being set up; and (b) what is the program for minimum water performance standards for appliances.
  - (11) Has the department undertaken any analysis of demand-side potential in the south east Queensland area.
  - (12) Can the department verify the Queensland Government's research which suggests that a modular desalination plant would cost only an additional 3 per cent of the \$1.6 billion that the dam would cost, while protecting threatened species habitat and preserving 10 per cent of Australia's dairy industry.

- (13) What is the involvement of the department with the Queensland Government's process to assess the environmental impact of the Traveston Dam.
- (14) What assessment is being undertaken by the department to identify species and habitat affected by the proposed dam.
- (15) What priority is being given to progressing urban water efficiency actions in south east Queensland and thereby avoiding of negative economic and environmental impacts that will be caused by the construction of the Traveston Dam.
- (16) Given that the Traveston Dam was deemed a controlled action under the *Environment Protection and Biodiversity Conservation Act 1999* in November 2006 and that the Commonwealth has the power under the Act to stop the Traveston Dam if evidence clearly shows that there will be a significant impact on a matter of national environmental significance, will the Government undertake an independent assessment of the environmental impact of the proposed dam or will it solely rely on the recommendation of the Queensland Government.
- (17) Have the recommendations contained in the Rural and Regional Affairs and Transport Committee report, *Options for additional water supplies for South East Queensland*, been considered for adoption.
- (18) Was the department aware that site work associated with the construction of the dam was commenced prior to approval.
- (19) With reference to the media release of the Queensland Government Minister for Natural Resource and Water (Mr Wallace), dated 21 February 2008, which stated that the Commonwealth Government audit had found that Paradise Dam was compliant with the Act and given that the audit report found that the downstream fishway was only functional with dam capacity above 57 per cent, is the department aware that, due to water allocation commitments, the average water level will be below this level.
- (20) Is the department aware of any information to suggest that housing developers with an association to the Queensland Labor Party are purchasing land from landholders whose holdings have been resumed for, or affected by, the dam.

382 **Senator Allison:** To ask the Minister representing the Prime Minister—With reference to the Prime Minister's commitment to undertake 'evidence based policy in terms of producing the best outcomes for this nation' in an interview on the Australian Broadcasting Corporation's *Lateline* program on 8 November 2007, a central theme repeated by ministers of the Government:

- (1) Is the Prime Minister aware of fast growing scientific evidence that climate change is accelerating rapidly, as indicated, among other evidence, by the 23 per cent growth in spring melt of Arctic Sea ice between 2006 and 2007 and by an increase in the rate of mountain glacier melting from 30 centimetres per year between 1980 and 1999 to 1.5 metres in 2006.
- (2) Is the Prime Minister aware that, increasingly, climate scientists doubt dangerous climate change can be avoided unless abrupt reductions in carbon emissions occur in the near future, as reflected, among other evidence, by the theme of an upcoming Australian Academy of Science (AAS) conference 'Dangerous climate change: is it inevitable?'.

- (3) Is the Prime Minister aware that, in the view of climate scientists, climate change can not be halted unless critical reductions are made in carbon emissions in order to attempt to reduce the atmospheric level of carbon dioxide from current levels (of near 450 parts per million (ppm)) to about 350 ppm.
- (4) Does the Prime Minister realise that, by analogy to a medical condition where precise doses of antibiotic need to be administered in time to counter bacterial infection, the runaway climate crisis cannot be mitigated unless critical emission reductions are made in time.
- (5) Is the Prime Minister aware of the danger that, should urgent measures on mitigation not be undertaken, carbon feedback effects from warming oceans and drying biosphere can result in a climate catastrophe, which has happened several times during the recent history of Earth due to solar radiation peaks.
- (6) Is the Prime Minister aware that current rates of carbon dioxide and temperature increases are 1 to 2 orders of magnitude faster than those which occurred during the last glacial termination, between 14.5 and 11.5 thousand years ago.
- (7) Is the Prime Minister aware of the consequences of inaction, including extensive droughts, storminess, acidification of the oceans, collapse of the marine food chain and the flooding of extensive low-lying agricultural regions and coastal cities caused by rising sea levels, leading to forced evacuations of hundreds of millions of people around the world.
- (8) How does the Prime Minister view the consequences of these developments compared to the cost of fast-tracked conversion from carbon-emitting utilities to clean energy applications, including solar-thermal, photovoltaic, wind, hot rocks, hydrogen and other techniques.
- (9) What is the difference in outcomes between the previous Government's denial of climate change and the current Government's apparent reluctance to follow the minimum mitigation measures recommended by the interim Garnaut report, which include emission reductions of between 25 and 40 per cent by 2020 and 90 per cent by 2050.
- (10) Will the forthcoming Treasury report on the economics of climate mitigation also consider the economics of major droughts, storms, rising sea levels and the damage to international trade systems consequent on runaway climate change.
- (11) Given that Australia is a net exporter of coal and has one of the highest per capita carbon pollution rates, is the Prime Minister willing to undertake immediate steps to promote Australian leadership in the world's attempts to stem the looming climate crisis.
- (12) Given the Prime Minister's undertaking that 'my door will always be open to men and women of goodwill who want to participate in making our country even greater in the future' in his election victory speech on 24 November 2007, is the Prime Minister willing to: (a) consider the evidence raised in the critical AAS meeting on 9 May 2008; and (b) accept a delegation of active climate scientists, in order to obtain direct advice regarding the fast deteriorating state of the atmosphere and its consequences.

*Notice given 31 March 2008*

  - (3) Did Mr Gray accompany the Prime Minister on a tour of the Woodside offshore oil and gas platforms; if so, in what capacity.
  - (4) Given that, as reported in the *West Australian* on 22 January 2008, after touring Woodside's offshore oil and gas platforms: 'Mr Rudd said a slice of the revenue from large resources projects such as Woodside's new Pluto development would be returned to the State over time' and the 'Prime Minister pledged to work side-by-side with Federal Resources Minister Martin Ferguson and Infrastructure Minister [sic] Gary Gray to ensure the economic powerhouse of the nation continued to thrive', will Mr Gray, having had a past personal association with Woodside, be allowed to make decisions that affect that enterprise or will this responsibility be passed to a senior minister or a minister nominated by the Prime Minister.
  - (5) Given the arguments between Australia and East Timor over maritime boundaries, the former Government's role in encouraging Woodside in its efforts to overcome the constraints of the American sanctions law that sought to limit worldwide investment in Libya and the role Mr Gray, as director of corporate affairs for Woodside, played in these negotiations, will the Prime Minister ensure that Mr Gray takes no part in negotiations or deliberations pertaining to the oil and gas exploration and production industry.

- (6) Given the role Mr Gray, as director of corporate affairs for Woodside, played in the negotiations on behalf of Woodside with Ms Clare Martin, Chief Minister of the Northern Territory in 2002, is it appropriate for him to be the Parliamentary Secretary for Regional Development and Northern Australia.

- (1) Does the Government consider it necessary for a complete, nationwide overhaul of the railway system.
- (2) Would such an overhaul include the modernisation of all of the system’s aspects, including high speed trains and punctual services, climatised passenger carriages, speedy freight delivery and a shift of trucks off the roads on long haul, comfortable, fast journeys for passengers travelling between major towns and cities, modernised stations to be more like airports and managed by people rather than machines and telephone or internet booking of seats and automatic ticketing, as occurs in Europe; if so, what is the Government’s program for doing so; if not, why not.

- (4) Does the Minister consider the Sydney to Canberra service to be satisfactory.
- (5) To what extent does the Minister consider the lack of passengers to be due to the standard of services provided on this service and other interstate lines in Australia.

- (2) Has the ASC reimbursed TA for funds spent prior to the suspension; if not, why not.
- (3) Is it the case that the ASC justified its suspension of funding to TA on the grounds that it sacked its national coach during an overseas competition but that this is now known not to be the case; if so, why was funding suspended.
- (4) Is it the case that TA now exceeds the governance requirements of the ASC; if so, why has funding not been reinstated; if not, what requirements are there still to meet.

That the following order operate as an order of continuing effect:

- (2) The Senate reaffirms its resolution of 20 June 1996, relating to procedures to be followed by committees in cases of unauthorised disclosure of committee proceedings.
- (3) The Senate provides the following guidelines to be observed by committees in applying that resolution, and declares that the Senate will observe the guidelines in determining whether to refer a matter to the Committee of Privileges:
  1. Unless there are particular circumstances involving actual or potential substantial interference with the work of a committee or of the Senate, the following kinds of unauthorised disclosure should not be raised as matters of privilege:
    - (a) disclosure of a committee report in the time between the substantial conclusion of the committee's deliberations on the report and its presentation to the Senate;
    - (b) disclosure of other documents prepared by a committee and not published by the committee, where the committee would have published them, or could appropriately have published them, in any event, or where they contain only research or publicly-available material, or where their disclosure is otherwise inconsequential;
    - (c) disclosure of documents and evidence submitted to a committee and not published by the committee, where the committee would have published them, or could appropriately have published them, in any event;
    - (d) disclosure of private deliberations of a committee where the freedom of the committee to deliberate is unlikely to be significantly affected.
  2. The following kinds of unauthorised disclosure are those for which the contempt jurisdiction of the Senate should primarily be reserved, and which should therefore be raised as matters of privilege:
    - (a) disclosure of documents or evidence submitted to a committee where the committee has deliberately decided to treat the documents or evidence as in camera material, for the protection of witnesses or others, or because disclosure would otherwise be harmful to the public interest;
    - (b) disclosure of documents prepared by a committee where that involves disclosure of material of the kind specified in paragraph (a);
    - (c) disclosure of private deliberations of a committee where that involves disclosure of that kind of material, or significantly impedes the committee's freedom to deliberate.
  3. An unauthorised disclosure not falling into the categories in guidelines 1 and 2 should not be raised as a matter of privilege unless it involves actual or potential substantial interference with the work of a committee or of the Senate.
  4. When considering any unauthorised disclosure of material in the possession of a committee, the committee should consider whether there was any substantive reason for not publishing that material.

- (4) Before deciding to raise a matter of privilege involving possible unauthorised disclosure of committee proceedings, any committee may seek the guidance of the Committee of Privileges as to whether a matter should be pursued. If the committee decides that such a matter should be raised, it must consult with the Committee of Privileges before taking the matter further.
- (5) When applying this resolution a committee shall have regard to the matters set out in paragraphs 3.43 to 3.59 of the 122nd Report of the Committee of Privileges, June 2005.

## A GUIDE TO THE NOTICE PAPER

The *Notice Paper* is issued each sitting day and contains details of current business before the Senate. Its structure is based on four main types of business, as follows:

**Matters of privilege** take precedence over all other business and are listed at the beginning of the *Notice Paper* when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to adjourned debates on such motions.

**Business of the Senate** has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

**Government business** is business initiated by a minister including the consideration of government legislation. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

**General business** is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above.

Within each of these categories, business consists of notices of motion and orders of the day:

**Notices of motion** are statements that senators intend to move particular motions on the days indicated. They are entered on the *Notice Paper* in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

**Orders of the day** are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters (including legislation) or requirements to present committee reports.

On days other than Thursdays, the *Notice Paper* records all business of the Senate and government business items, but includes only new items of general business from the previous sitting day. On Thursdays, business relating to the consideration of government documents, committee reports and government responses to committee reports is also published.

Other sections in the *Notice Paper* are as follows:

**Orders of the day relating to committee reports and government responses**—adjourned debates on motions to consider or adopt committee reports and government responses. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear on the following day's *Notice Paper*. The section is printed in full on Thursdays.

**Orders of the day relating to government documents**—adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for up to one hour on Thursdays during the consideration of general business. New items appear in the following day's *Notice Paper*. The section is printed in full on Thursdays.

**Business for future consideration** lists any notice of motion or order of the day to be considered on a specific day in the future; for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

**Bills referred to committees** lists all bills or provisions of bills currently being considered by committees.

**Questions on notice** includes the text of new questions on notice and lists the numbers of unanswered questions.

**Orders of the Senate** includes orders of short-term duration such as orders for production of documents and those relating to days of sitting for a period of sittings.

**Contingent notices of motion** are statements of intention by senators that, contingent on a specified occurrence, they may move a motion, usually to suspend standing orders. They are grouped by subject.

**Temporary chairs of committees** is a daily list of all senators appointed to take the chair in the absence of the President or Deputy President.

**Categories of committees** is a daily list, categorised by type, of Senate and joint committees. Details of each committee appear in the committee section.

**Committees** lists all of Senate and joint committees, including membership, current inquiries and reports presented on or since the previous sitting day.

**Senate appointments to statutory authorities** lists the statutory authorities on which the Senate is represented and details of representation.

**Ministerial representation** lists Senate ministers and the portfolios they represent.

### The ‘full’ Notice Paper

On the first day of the autumn and spring sittings a full *Notice Paper* is printed listing all outstanding business before the Senate, including the full text of all unresolved notices of motion and unanswered questions on notice. This edition is a complete reference to unresolved business from earlier in the session and is useful to keep. All business before the Senate is published daily in the full online version of the *Notice Paper*, available on ParlInfo and at: [www.aph.gov.au/senate/work/notice/index.htm](http://www.aph.gov.au/senate/work/notice/index.htm)
