

Submission No. 731

(Inq into better support for carers)

A.O.C. 14/7/08

To the committee FCHY (reps)  
Kerry

I am writing this short letter in hope for a better deal for carers. My husband and myself are getting on with our age it would be lovely to think that our 28 year old daughter would be looked after well when we no further can. She has celebral palsy very severe as we have to do everything for her wash, bath toilet feed clean teeth dress the list is endless we don't mind of course she is our daughter but nobody asks to be born with a disability so a bit of help would be appreciated in our case we are looking for permanent care in our town so she will still have family around her. I thank you for taking the time for this letter

Regards

Kerry
