

Submission to

House Standing Committee on
Infrastructure and Communications
Inquiry into IT Pricing
House of Representatives
PO Box 6021
Parliament House
Canberra ACT 2600

I have made contact with this company however neither Autodesk USA, or Autodesk Australia responded to my questions relating to their pricing. I do business with some American Companies who do not have the need to carry out the practices being investigated by the committee.

The following are prices for 2 Autodesk Products on the Internet 31/07/12

	Autodesk Australia	Best Retail Australia	Autodesk US	Amazon US
Autocad LT 2013	\$ 1,775.00	\$ 1,649.00	\$ 1,200.00	\$ 861.99
Autocad 2013	\$ 5,925.00	\$ 6,282.00	\$ 3,995.00	\$ 3,580.00

Thank You

Ken Wilson

Autodesk has not been mentioned in anything I have read so far.

It is no longer possible to get onto the pricing page of the U.S. site, re-directed.

But at Amazon.

Autodesk Site

AutoCAD LT 2013

Priced from:

AUD 1,775.00

This could be downloaded from the U.S. Site for around \$1200.00 if they would let us.
Amazon will also not sell this software to Australians.
