

Submission No. 4
Treaties Referred on 16 November 2010

**STATEMENT FROM THE DEPARTMENT OF INNOVATION, INDUSTRY
& SCIENCE & RESEACH ON THE ECONOMIC IMPACT OF ANZCERTA
RULES OF ORIGIN**

On finalisation of the ANZCERTA Rule of Origin (ROO) Review negotiations, the Department of the Treasury conducted an analysis of the revenue forgone implications of the ROO changes proposed by the Review. The Department of the Treasury determined that the changes resulting from the Review were expected to have a negligible cost to revenue in the forward estimates. This was likely due to the fact that the majority of trade from New Zealand was already entering Australia duty free under ANZCERTA.

At the initiation of the Review, the Department of Innovation called for submissions on the ROO Review process so that industry could comment on the effect the changes would have on their business activities. The submissions indicated that the main area of sensitivity for Australian industry was in the men's structured apparel sector. On finalisation of the Review, the Department of Innovation undertook a trade and revenue collected data analysis of men's structured apparel (HS6203). This analysis indicated that imports from New Zealand in HS 6203 were declining and as a result, the impact on revenue forgone was expected to be minor. The analysis undertaken was not predictive of any trade changes attributable to the changes in the ROO.

**ANZCERTA Rules of Origin Review:
Factory Cost Regional Value Content Line Changes**

The following eight tariff lines retained the factory cost RVC method after the 2007 ANZCERTA review, which is to be removed on implementation of the 2009 amendments. The RVC on line 6203 will be removed on 1 January 2012, however, the date for the amendment to the other seven lines is when the amended Customs Regulations for ANZCERTA comes into effect.
