Submission No:13.....

BY:
To Dr Andrew Southcott, MP,
Liberal Party, Boothby,

Dear Sir,

I am very worried that the proposed "Free Trade Agreement" between Australia and the U.S.A. may prevent Australia from independently controlling the importation of "Genetically Engineered" products and living organisms.

There is no mention in the Agreement of "Genetic Engineering", and I suppose that this means there is no provision for "trade barriers" on the basis of "G. E." states.

Please do all in your power to prevent the Agreement.

Yours sincerely,

Mnemorie Giles.
