

**Australian Parliament
Joint Standing Committee on Migration
Submission no. 236**

Dear Chairperson,

Thank you for the opportunity to submit my opinion on the question of multiculturalism in Australia.

I will make my statement short and to the point.

I and most of my colleagues are not opposed to the immigration of peoples from other lands to this fair country.

We are **vehemently opposed to the immigration of Muslims to Australia**. The evidence is plain for all to see. The traditions of Islam conflict and are not in keeping with the culture and values of traditional Australian society.

The inflow of illegal immigrants by boat in the north, almost all Muslim, mostly unskilled, must be stopped.

Within the refugee and humanitarian allocation of 13,500 places a year, stress should be placed on need but also on the ability to integrate into Australian society.

Look to Europe for proof.

Look to Cronulla for proof.
