Subject: Immigration bridge

Dear Committee Secretary,

We are strongly opposed to the immigration bridge.

We do not want another bridge cluttering the views of the lake.

We do not want anything interfering with the water sports such as sailing, windsurfing and paddling, as the immigration bridge will.

We do not want our city to spend millions on a bridge which will hardly be used when we have a desperate need for more police and health services (not to mention the needs of the homeless).

Instead of shortening a walk for some, build better public transport for all. This bridge is way down on the priorities list.

As regular users of the lake (for cycling, sailing, windsurfing, walking, picnics) we are strongly opposed to the bridge.

Regards

Ben and Lina Sheils
