Subject: Pay Parking in Barton

If, as suggested by the ACT Government, pay parking is introduced into the Parliamentary Triangle I would appreciate the Committee taking into account the following matters; 1. The bus services needs considerable upgrading from and to most areas to be effective as more user and environmentally friendly alternative to vehicle use. 2. A "3hrs for Free" car pooling and parking option, as in Woden, should be introduced. 3. A few more well placed pedestrian crossings should be put in place.

4. Careful consideration must be given to adequate tourism parking at all the attractions and for business visitors to Govt Dept. and businesses in the area.
