Subject: comment on adequacy of radio services in non met. Aust.
The Sec.
House Communications Comm.
Parl. House
Canberra.

WE live in rural s.e .qld ,20 klms s. of Gympie.We rely on radio enormously,as we live on the Mary River &in times of heavy rain early advice on the state of the river up stream is of vital importance to us. This area has always been poorly represented by the ABC our nearest station being Maryborough/Bundaberg.The local commercial station 4GY is pathetic.The local content is negligable ,except the adds & the situation with daylight saving time in NSW adds to the general dissatisfaction of the whole system of networking currently employed.We deserve a better service in this day of advanced technology & hope this inquiry begins this much needed & awaited improvement.

Thank you
Alan & June Holznagel
