

TO WHOM IT MAY CONCERN

We understand that the Migration Committee has launched an enquiry into multiculturalism in Australia.

We are very much in favour of multiculturalism. Several of our closest friends are from countries outside Australia. We love the diversity that multiculturalism brings.

However we also want to protect what has been our Australian heritage and one which both our father's fought for. We expect our Government to adhere to core Christian values. We want to maintain the freedom and democracy which we cherish as Australians. We feel very concerned that the Australia we love must be kept for future generations and not altered to accommodate the non-Australian values which radical races are wanting to introduce into our country.

Welcome people from other races but only if they are prepared to whole heartedly embrace what our wonderful country offers and not have an expectation that we will change to accommodate their beliefs.

Regards,
