

## **SUBMISSION 55.10**

### **Summary of National Capital Authority Forward Maintenance Program (Senator Hogg)**

A table of Departmental asset maintenance costs, by activity, is at **Attachment A**.

The table shows that asset maintenance (part of Output 3) is expected to account for 78% of the total budget for supplier expenses in 2008-09 and is expected to account for 85% by 2011-12.

The forecast remainder available for supplier expenses attributable to the remaining two Outputs and all NCA corporate expenses (such as rent, IT, communications and administrative expenses) is just 22% (\$1.85m) in 2008-09 and falls to 15% (\$1.25m) by 2011-12.

The above factors give the clearest possible confirmation of the sustainability crisis facing the NCA.

### **Level of additional funding required to manage existing assets (Senator Hogg)**

The ideal increase to annual appropriation to maintain assets and to reflect their National Capital importance would be \$2m per annum. This reflects the unfunded maintenance cost of assets acquired since 1999 (and is the amount identified as “close to \$2m” in Mr Rake’s verbal response to Senator Hogg’s question about the maintenance of existing assets).

If the current review of the Statements of National Significance and investigation into the nomination of Canberra to the National Heritage List result in National Listing, there would be a general increase in the cost of asset management attributable to the broader application of the *Environment Protection and Biodiversity Conservation Act 1999*. In this case, additional funding of up to \$1m per annum would be required to cover the cost of preparing, implementing and reporting on heritage management plans.

The supplementary funding does not need to rectify the full erosion in underlying real annual funding over recent years, as the NCA has already achieved a number of previous productivity and efficiency gains. These include:

- Introduction of Teamworks performance management system
- Absorbed the costs associated with additional risk management requirements
- Discounts on our annual insurance premiums for results in Comcover’s annual Awards for Excellence in Risk Management and annual benchmarking as follows:

2005-06	\$109,792
2006-07	\$87,751
2007-08	\$32,132
- Relocation of the NCA offices and space rationalisation to reduce rent expense
- Development of numerous innovative arrangements to raise rent revenue from NCA buildings and facilities
- Absorbed the additional costs associated with budget reform
- Effective management of workplace injury resulting in reduced cost of workers compensation insurance
- Developed external sponsorship partnerships generating funding equivalent to more than \$100,000 each in cash and in-kind sponsorship in 2006-07 (this activity has ceased due to recent budget savings)
- In sourcing of memorials maintenance
- Establishment of lake water irrigation systems

### **National Capital Authority's asset register (Senator Lundy)**

The NCA's asset register is at **Attachment B**.

### **Valuation of the assets transferred as part of the Griffin Legacy (Senator Humphries)**

After giving evidence on 2 May 2008 we have liaised with the (former) NCA officer who was primarily responsible for liaison with the ACT Government regarding the valuation of roads prior to the associated gazettals in August 2007. Neither he nor the reciprocal officer from the ACT Chief Minister's Department recall actually exchanging the respective valuations although both recall (and there is NCA file evidence) discussions related to these valuations. This corrects evidence given on page NCET 57 by Ms Annabelle Pegrum during the inquiry hearing on 2 May 2008, where Ms Pegrum stated that the NCA and ACT Government exchanged valuations.

The valuation undertaken for the NCA by the Australian Valuation Office is at **Attachment C**.

### **'Cost shifting' between outputs (Senator Lundy)**

The term 'cost shifting' generally refers to a practice whereby costs that are incurred in delivery of one Output are reported as having been incurred in delivery of another Output. Another term for this practice is 'cross-subsidisation'.

Such practice is inconsistent with the Commonwealth budget framework. The NCA does not engage in any 'cost shifting' or 'cross subsidisation'.

The NCA uses a clear methodology, supported by business systems, to allocate direct and indirect costs to the three outputs. NCA output costs are reported as part of the annual financial statements and are subject to audit by the ANAO.

The budgeted output costs reported in the NCA Portfolio Budget Statements (PBS) for each financial year form the basis of the NCA Business Plan for that year.

If, during the year, there is a need to make a material change to the delivery of outputs (for example if as a result of unforeseen circumstances, one output needs to be reduced in order to fulfil the core statutory responsibilities under another output), that change would be reflected in a change to the projects under the NCA Business Plan. The revised business plan would be approved by the Authority.

The respective changes in the actual cost of delivery of each output would be accurately reflected in the annual financial statements, with explanatory notes where necessary.

### **Expenditure in each output in the previous financial year (Senator Lundy)**

In the course of answering Senator Lundy's question during the hearing, Mr Gary Rake quoted the *total cost of outputs* (the 'Total departmental expenses' line within Note 28B on page 194 of the NCA 2006-07 Annual Report). The total cost of outputs includes both appropriation funding and external revenue raised by the NCA.

Ms Annabelle Pegrum went on to compare these total output costs for 2006-07 to the *budgeted appropriation revenue* per output for 2007-08. Mr Rake concurred with the comparison. On the basis of this comparison, there appeared to be a material movement in budget allowance for output 2. The comparison was, however, flawed in that it excluded those external revenues (such as sponsorships) which would be received for output 2 during 2007-08.

The following table sets out the proper comparison of appropriation funding for each output in 2006-07 (actual) and 2007-08 (original budget). The 2006-07 figures are from the 'Funded by Revenues from government', again within Note 28B on page 194 of the NCA 2006-07 Annual Report amount of, and reasons for, movement in the cost of outputs.

<b>2006-07 Actual Appropriation</b>	<b>2007-08 Original Budget</b>	<b>Comments</b>
Output 1: Plan <b>\$3.044m</b>	Output 1: Plan <b>\$2.800m</b>	2006-07 increase was due to a single year initiative for Griffin Legacy.
Output 2: Promote <b>\$4.438m</b>	Output 2: Promote <b>\$4.570m</b>	Minor increase, due to Indexation( less Efficiency Dividend).
Output 3: Maintain <b>\$9.944m</b>	Output 3: Maintain <b>\$13.067m</b>	Increase in 2007-08 primarily due to \$3m maintenance funding for assets transferred from the ACT. That funding ceases on from 1 July 2008.

**Movement in the cost of outputs from the 2006-07 to 2007-08 (Senator Lundy)**

On the basis of the erroneous comparison of *total output costs* to *budgeted appropriation funding*, outlined above, Senator Lundy asked for an explanation of the movement in the cost of outputs from the 2006-07 to 2007-08 and for details of the activities or projects effected by those changes.

In responding to the above question, Ms Pegrum and Mr Rake referred to a number of reductions implemented by the NCA early in 2007-08 to address existing budget constraints.

Those reductions did in fact occur, but the need for them is not readily apparent through the budget papers. The need for the reductions was identified internally early in the financial year. Monthly financial analysis of actual operating expenses indicated that the NCA would not be able to meet its budgeted operating result for 2007-08 and reductions of approximately \$555,000 would be necessary to ensure the NCA operated within its budget resources.

To accommodate the anticipated shortfall of \$555,000, ten positions were identified as potentially excess and one new revenue initiative was implemented. The new revenue initiative, with an expected revenue of \$80,000, was to charge for guided tours of the National Capital Exhibition. Five staff were offered and accepted voluntary redundancies.

**Organisational growth and staff turnover (Senator Hogg)**

Details of organisational growth and staff turnover is at **Attachment D**.

**Increase in Authority Membership (Senator Humphries)**

Costs associated with the servicing of the Authority were provided in response to Question on Notice 43 from Senator Lundy during Senate Additional Estimates in February 2008:

<b>Remuneration</b>	
Chief Executive's remuneration – full time Authority member	\$249,921 (see note below)
Chairman – remuneration/sitting fee as per Remuneration Tribunal Determination 2007/10	\$43,260
Authority members (3) - remuneration/sitting fee as per Remuneration Tribunal Determination 2007/10	\$52,380 (\$17,460 per member)
<b>Total</b>	<b>\$345,561</b>
<b>Servicing</b>	
Travel Allowance Allowance is payable for overnight stays. Four Authority members live interstate and on average stay overnight in Canberra for one night during Authority meetings. Any meals that are provided on the day of an overnight stay are deducted from this allowance as per the Remuneration Tribunal Determination 2004/03.	\$335 per night
Airfares – Authority members are entitled to travel business class as per the travel tier in the Remuneration Tribunal Determination 2007/10. Two members fly to Canberra for each meeting. The other two members either drive or fly depending on their commitments. When members drive, they are paid a mileage allowance as per the Remuneration Tribunal Determination 2004/03.	\$25,022 (2006-07) \$24,963 (2007-08 to February)
Other expenses – this includes taxis, Comcar rental, bus hire for site visits, meals, photographs, postage and freight	\$31,281 (2006-07) \$13,961 (2007-08 to February)

Based on expenditure for 2006-07, the estimated cost of servicing the Authority is \$178,595. This is based on ten Authority meetings for the financial year and does not include the Chief Executive's remuneration. This amount may decrease in future financial years with a reduction in Authority meetings and the utilisation of teleconferencing facilities. Servicing the Authority during 2006-07 also included approximately 75% of an APS 6's workload. Following the implementation of budget savings, this has been reduced to approximately 25%.

**Note:** The terms and conditions of employment for the Chief Executive of the NCA are covered by Remuneration Tribunal Determination 2005/19. Under the Principal Executive Officer (PEO) structure, the Chief Executive is a PEO Band C. Remuneration Tribunal Determination 2007/08 sets the total remuneration range for PEO Band C as \$190,000 to \$379,000. The Chief Executive is also eligible for a performance bonus of up to 15% per year.

## NCA Forecast Asset Maintenance Costs – By Asset Class and Activity

		2007-08	2008-09	2009-10	2010-11	2011-12
Infrastructure & Assets	Griffin Legacy Infrastructure maintenance - (roads, lights etc tfr from ACT Govt)	884,065	-	-	-	-

## **Organisational Growth and Staff Turnover**

### **Commencements and Separations (Staff Turnover) - Attachment 1**

Attachment 1 provides a break down of commencements and separations for the NCA during the 2006-07 and 2007-08 financial year-to-date. Further details of staff commencements and separations from previous financial years back to 1999-2000, are available in the NCA's annual reports which are available on our website:

[http://www.nationalcapital.gov.au/corporate/publications/annual\\_reports/](http://www.nationalcapital.gov.au/corporate/publications/annual_reports/)

To assist in accurate comparisons to previous financial years, the attached tables are provided in a similar format to that appearing in NCA annual reports.

### **Organisational Growth - Attachment 2**

Historical data of the staffing numbers and classifications from 1999-00 is provided at Attachment 3. The figures provided are in head count form and include ongoing and non-ongoing (i.e. fixed term and casual) employees.

Much of the larger fluctuations can be explained by movements of casual APS 1/2 employees into the National Capital Exhibition (the Exhibition was refurbished in 2000 and guided tours introduced). The following years in particular experienced significant increases in head count:

1999-00 to 2000-01	Total growth 12 employees (6 APS 1/2)
2003-04 to 2004-05	Total growth 7 employees (4 APS 1/2)
2005-06 to 2006-07	Total growth 12 employees (4 APS 1/2, 7 APS 5)

Introduction of new work practices and reporting requirements such as GST, accrual accounting, security and increased regulatory functions have also had effects on staffing levels.

It should be noted that the figure of five SES for 2007-08 includes four substantive SES and one EL 2 acting in an SES role. All 2007-08 financial year figures are provided as at 8 May 2008.

### **SES to Staff Ratios**

Prior to the implementation of budget savings required by Government, the SES to staff ratio was 1:16 (July 2007). Following the implementation of budget savings, the SES to staff ratio is 1:11 (May 2008).

It should be noted that the high level of functions and responsibilities require officers at the SES level. As a result of the implementation of budget savings, current SES positions have taken on additional roles and responsibilities. For example, the roles responsibilities of Director positions identified as excess have been added to current SES positions.

## NCA Commencements and Separations 2006-07 and 2007-08

### NCA 2006-07 Commencements and Separations

Commencements 49 (15 ongoing and 34 non-ongoing)  
 Separations 36 (24 ongoing and 12 non-ongoing)

Classification	Men		Women		Total Employees
	Ongoing	Non-ongoing	Ongoing	Non-ongoing	
<b>SES</b>					
Commencements	0	0	0	0	0
Separations	0	0	0	0	0
<b>EL 1-2</b>					
Commencements	4	7	1	4	16
Separations	4	3	4	2	13
<b>APS 1-6</b>					
Commencements	3	4	9	17	33
Separations	8	5	8	2	23
<b>TOTAL</b>					
Commencements	7	11	10	21	49
Separations	12	8	12	4	36

### NCA 2007-08 Commencements and Separations

Commencements 24 (7 ongoing and 17 non-ongoing)  
 Separations 61 (40 ongoing and 21 non-ongoing)

Classification	Men		Women		Total Employees
	Ongoing	Non-ongoing	Ongoing	Non-ongoing	
<b>SES</b>					
Commencements	0	1	0	0	1
Separations	2 <sup>(1)</sup>	0	0	0	2
<b>EL 1</b>					
Commencements	0	2	1	0	3
Separations	3	2	4	0	9
<b>EL 2</b>					
Commencements	1	0	0	1	2
Separations	7	0	0	0	7
<b>APS 1-6</b>					
Commencements	4	6	1	7	18
Separations	10	7	14	12	43
<b>TOTAL</b>					
Commencements	5	9	2	8	24
Separations	22	9	18	12	61

(1) The figure includes one SES officer who is on extended leave pending retirement in mid May 2008.

Of the 38 employees identified as excess during the implementation of savings measures in January 2008, 26 have been successfully redeployed or exercised other career options; 2 have been internally redeployed; 3 are on temporary transfer to other APS/ACTGS agencies; 1 is on leave without pay for personal reasons; 2 are on leave pending commencement with other APS agencies; 2 have secured employment with other APS agencies and are awaiting confirmation of a commencement date; and 2 are still seeking employment opportunities.

Additionally, 5 employees were made redundant in August 2007 following an internal processes review and 1 employee was made redundant after an evaluation of their position in July 2007.

## Attachment 2
