**INQUIRY INTO LOCAL GOVERNMENT  
AND COST SHIFTING**

**TERMS OF REFERENCE**

The Minister for Regional Services, Territories and Local Government has asked the Committee to inquire into:

Cost shifting onto local government by state governments and the financial position of local government. This will include an examination of:

1. Local government's current roles and responsibilities.
2. Current funding arrangements for local government, including allocation of funding from other levels of government and utilisation of alternative funding sources by local government.
3. The capacity of local government to meet existing obligations and to take on an enhanced role in developing opportunities at a regional level including opportunities for councils to work with other councils and pool funding to achieve regional outcomes.
4. Local government expenditure and the impact on local government's financial capacity as a result of changes in the powers, functions and responsibilities between state and local governments.
5. The scope for achieving a rationalisation of roles and responsibilities between the levels of government, better use of resources and better quality services to local communities.
6. The findings of the Commonwealth Grants Commission Review of the *Local Government (Financial Assistance) Act 1995* of June 2001, taking into account the views of interested parties as sought by the Committee.

The inquiry is to be conducted on the basis that the outcomes will be budget neutral for the Commonwealth
