

Joint Standing Committee on Electoral Matters
Submission No. 28
Date Received 22/4/08
Secretary

19-04-08

MR. FRANCIS H. PAULER

candidate for One Nation.

Dear Sir & Madam.

I would like to make submissions, about Federal ~~Electors~~ Government election on 24 November 2007.

As far I am concern the present situation, about donations, income and expenditure by political parties and independents is very well balance.

So I would not like to change anything in this area. As long all donations and expenditure are disclose. Political parties and independents must have the same rules and conditions.

I do believe that all elections expenditure should be and must be for tax deductible for every candidate.

If we want to have good candidates and good Democracy Government in Australia.

I do support public funding for political party and independent candidates contesting Federal Government election.

But the funding should be limited \$2.00 per one vote.

If we do want any good Democracy system in Australia.

So I would like to urge you please do keep present fundraising and taxation matters for elections.

As far I am concern the big problem for all elections. Is Media in print and electronic in every elections.

The Media in print and electronic is always only

interested in Labor party and Liberal's National party.
The Media give these two parties always a lot of
free publicity.

and they give nothing or very little to others
political parties and independent.

I do believe that is time that every candidate for
every elections do get the same amount of free time
and space in prints and electronics TV and radio.
If you can resolve this problems with Media in
prints and TV and radio.

Then you will resolve big problem which we do
have with every election.

And as result we will have better Democracy and
better Governments in Australia.

Unfortunately all the media in prints and ~~in~~ in
electronics TV and radio do not understand
what the good Democracy is all about.

Yours Sincerely

F.H. Party
