Dear Secretary

I wish to make a submission to the House of Representatives Standing Committee on Family, Housing, and Youths. Inquiry into Better support for Carers

My role as carer is to help my wife Beryl in many ways, at 86 years of age she has many health problems, suffers T.I.A. turns, and other problems from many operations. Our Doctor has informed me not to leave her alone for any length of time, and I would rather care for her while I can, and not have her in a nursing home

I am 92 years of age, 93 in December and been married to Beryl for 66 years, and would appreciate, any financial support for the carers

Yours Sincerely

J.
