

13 February 2014

Committee Secretary
Joint Select Committee on Northern Australia
Post Office Box 2016
Parliament House
CANBERRA ACT 2600

Dear Sir / Madam,

The Joint Select Committee have been presented with an idea of developing a main road from Karumba to the East Coast near Cardwell.

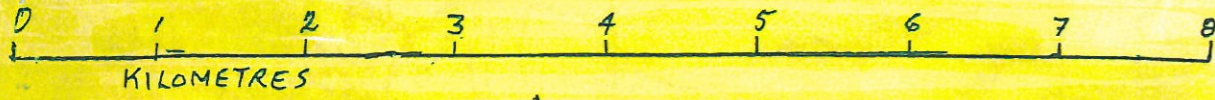

This would be a fantastic opportunity for communities on the East Coast to gain easier access to already developed roads and provide an alternative route during times of flooding and natural disasters.

We have attached a map provided by Mr Harrison Duncan and we support in principle this opportunity for Cardwell and North Queensland.

If you have any queries please do not hesitate to contact me.

Yours faithfully

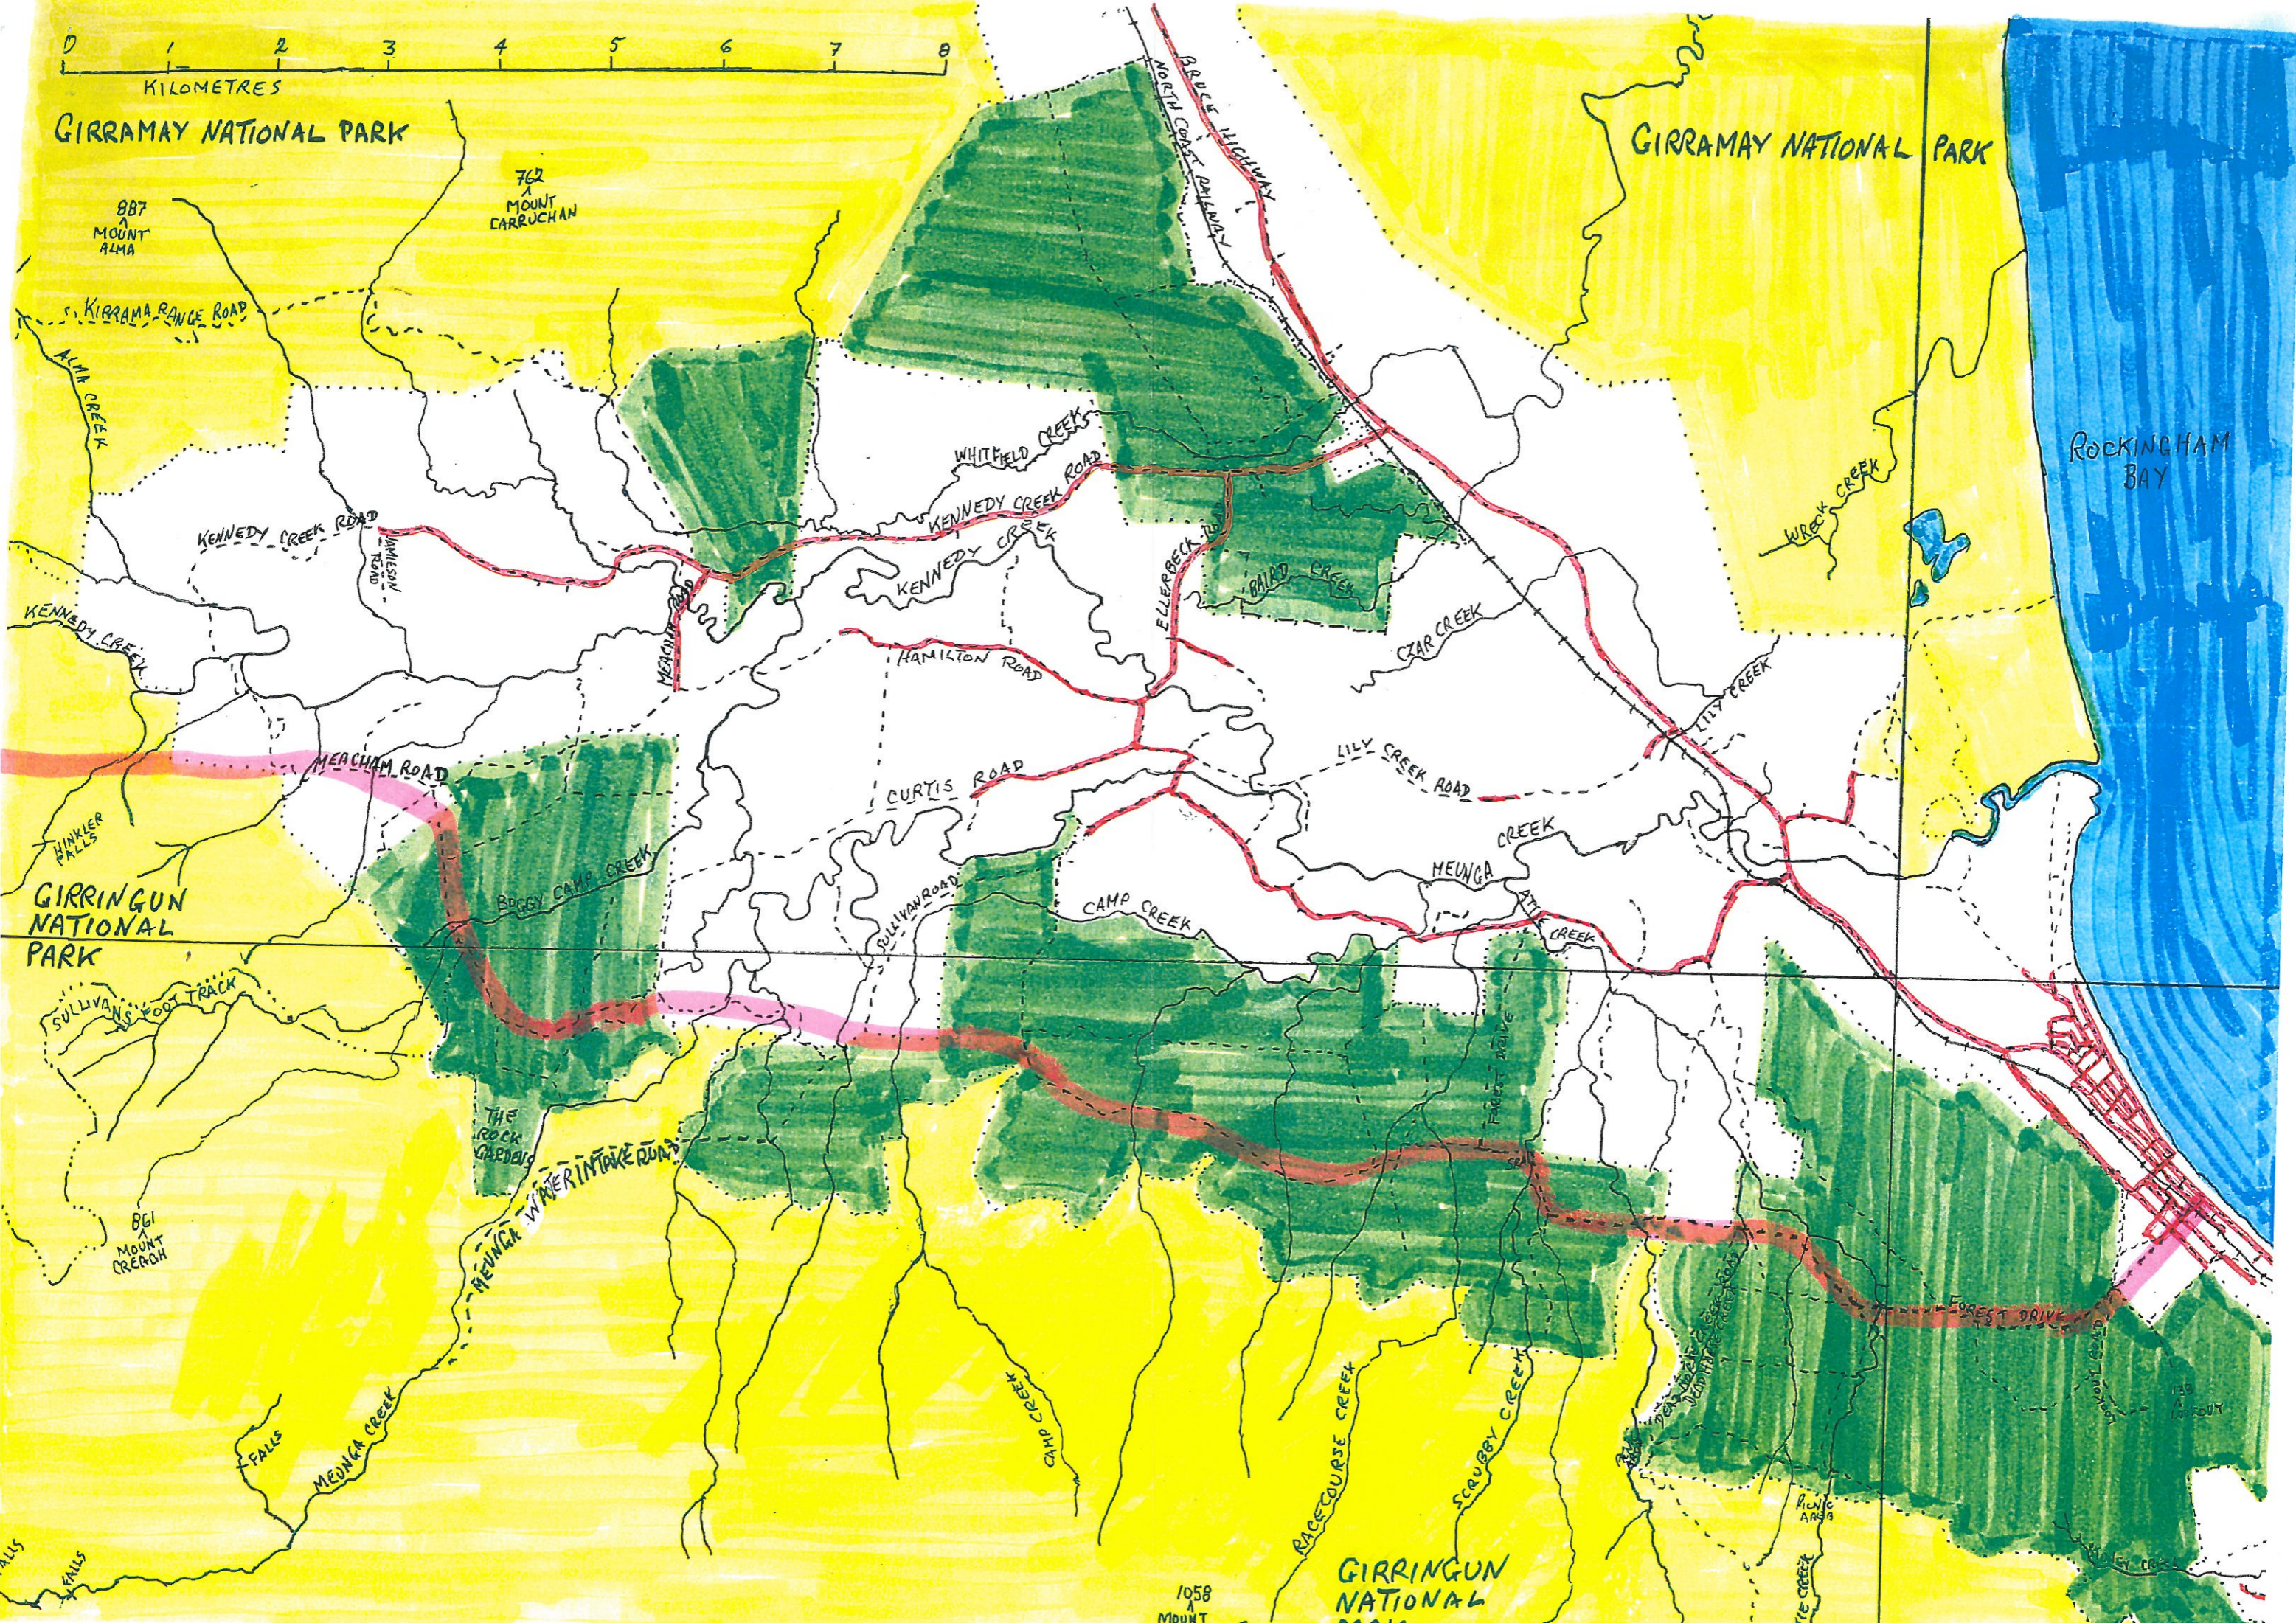

Amelia Slade
Secretary
