

## SUBMISSION NO 1

To the Secretary,

I took an interest in the 'Convention on the recognition of qualifications concerning higher education in the European Region'.  
I would just like to say I strongly agree with the terms and conditions for this treaty to be passed.

However, in relation to Article IV .3 shouldn't we look at the recent poll specifying the fact that Australian universities aren't among the 38 best universities of the world. Perhaps there needs to be a raising of standard for Australian universities. Otherwise, how will the needs be matched from one university in Australia to another university in the European Region if the standard of learning falls below the institution requested.

Thank you for the opportunity to voice my opinion.

Kind Regards,

Joanna Alwast
