

The Secretary  
House of Representatives Standing Committee on Legal and Constitutional Affairs  
Parliament House  
Canberra ACT 2600

I wish to submit my support for human cloning.

Any research, development and assistance which may be gained by human cloning for disabled, injured or diseased people must be undertaken.

The data required to improve the standard of living of all people, currently alive and yet to come, must be acquired.

I believe that it is unethical to deny any person who is in any way challenged the opportunity for an improved life.

Most sincerely,

June Hearn
