

**Australian Parliament
Joint Standing Committee on Migration
Submission no. 222**

Dear Sirs,

We don't need another (ism) in Australia as a 74 years old west aussie I have seen the erosion, the high cost, the changes of attitudes in Australia as we get an increase in Middle Eastern people . Mainly Muslims , who are wanting and demanding we change our laws to suit them . The non Muslims immigrants have not caused trouble, or wanted laws changed to suit their belief system.

I fear for Australia after seeing what, Islam had done to once great nations of safety and peace turning them to hatred and violence.

Just listen to France, Germany, Scandinavian nations about their terrible troubles destroying their countries, beliefs and infrastructure and decide if we want that. The younger generation of Muslims are worse with their hatred towards western women's dress and lives, stating that they deserve to be raped .
