

16 April 2008

SL 29/4/08
Submission No. 4
(Enoggera Redevelopment)

Committee Secretary
Parliamentary Standing Committee on Public Works
PO Box 6021
Parliament House
CANBERRA ACT 2600

Attention: Mr James Catchpole

Dear Sir

Enoggera Redevelopment Stage 1 Project Gallipoli Barracks, Brisbane, Queensland

Thankyou for your letter dated 26 March 2008 concerning the above development.

ENERGEX is aware of this development and has been engaged in discussions with the electrical consultants.

This project is one of three projects within the Gallipoli Barracks at Enoggera. All three developments have been incorporated into ENERGEX's planning processes.

The Department of Defence is an 11,000 volt connection customer and is therefore responsible for the capacity of the network within the Gallipoli Barracks. The ENERGEX network will not require any upgrade, but to maintain consistency with current arrangements, ENERGEX will modify the monitoring systems to match the works within the Barracks.

For further information on ENERGEX's works associated with this project, please call Asset Manager Central West, Mr Russell Howard on (07) 3407 4671.

Yours sincerely

Terry Effeney
Chief Executive Officer
