**Re**

**HMAS Penguin Redevelopment, Mosman**

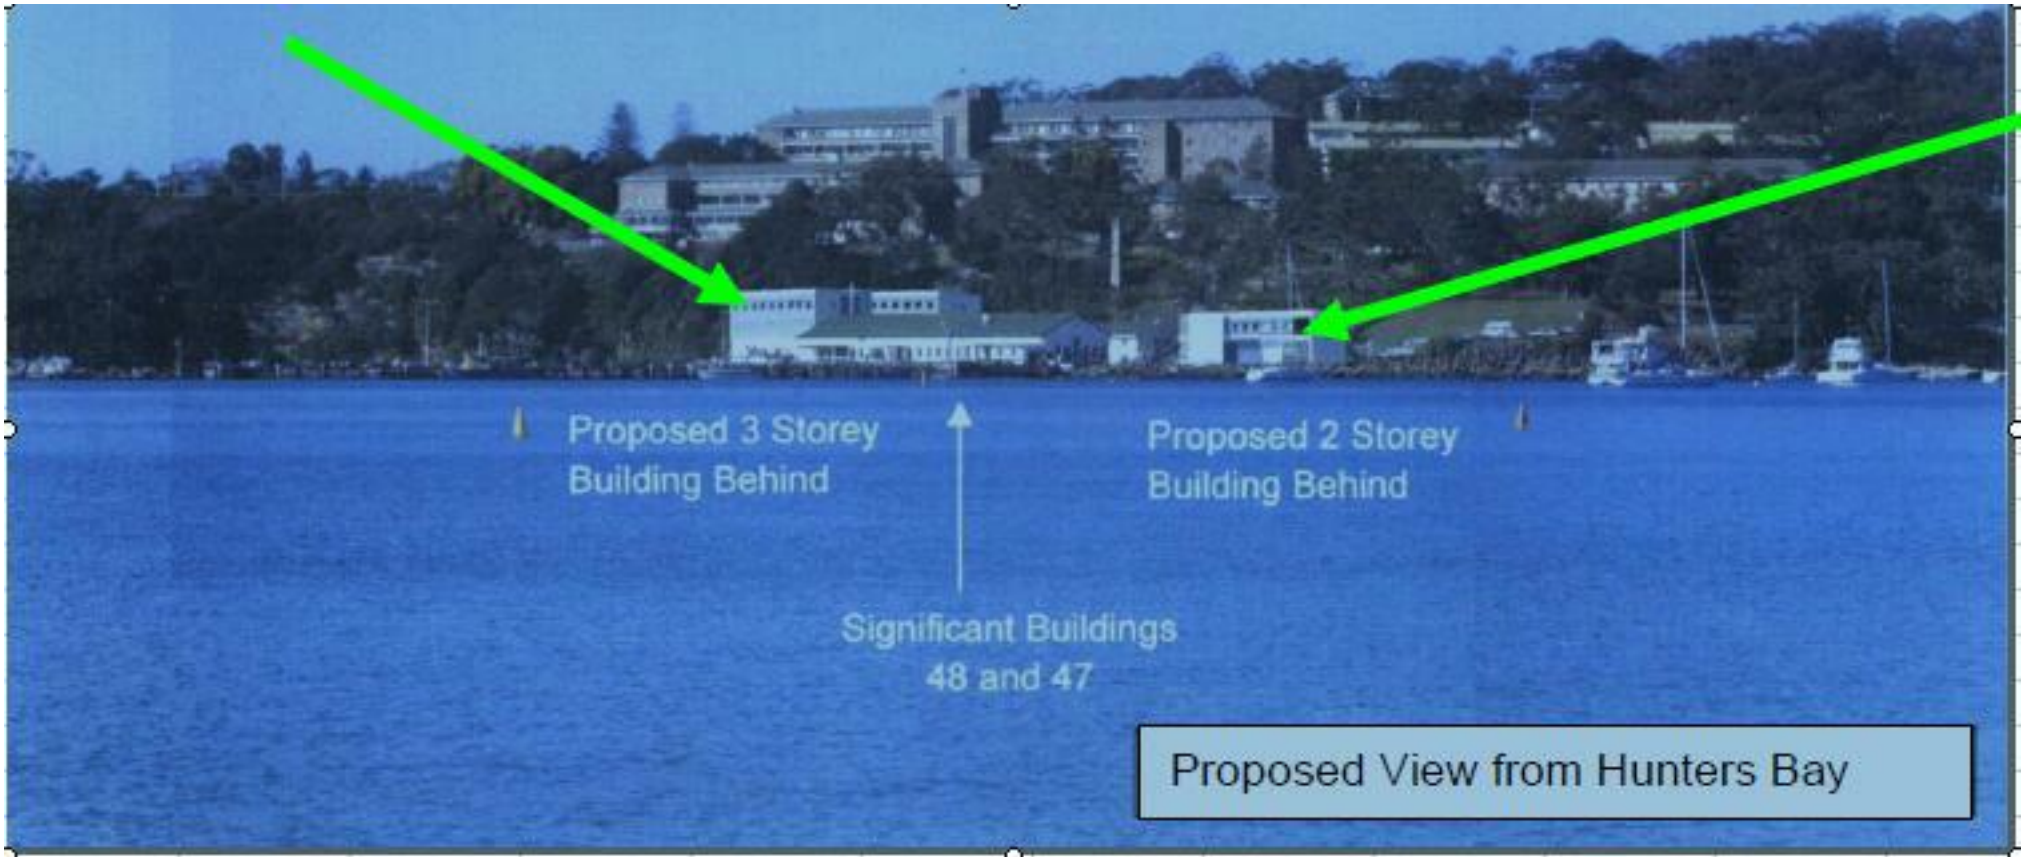

Dear Sir,

I have no objection to the proposed development. however see photo attached. Could the external area of new buildings be in softer colours which match the surrounding area of green vegetation and green roofs, even the old Buildings 47 and 48 could be painted in softer green colours. In particular the new buildings should not stand out as bright, white or

silver architectural statements, but should blend into the surroundings.

Steve Goudie
