Dear Sir/ Madame,  
I wish to inform you of the poor quality radio reception I receive in the daintree region. Specifically in the Cape Tribulation/ Cow Bay area. It is not only radio reception that is bad, but also television (including australian, etc), telephone, and internet services.

I'm not sure if this is relevant to your inquiry, but please stick a pin in the map down there with a note saying "require 3.6 metre satellite dish to get any decent communications". Whether this affects our community in any 'negative' way is open to debate. Though looking around, mmmm, I don't know?

Thanks  
Gavin Douglas
