Dear Secretary

I wish to make a submission to the House of Representatives Standing Committee on Family, Community, Housing and Youth's Inquiry into Better Support for Carers.

As a Carer, I feel that my role is

To aid, support and care for any family member
unable to cope with every day life tasks.

I face the following problems ...

I cared my husband for over five years after he
suffered a severe stroke. After a second stroke
he passed away last November. I see carers
who are good friends struggle daily to cope with the
I need help with. I experience stress of caring for family members.

Also some of my friends have made their own person
to call for. They many most absent if something
happens to them what help for their families. Last year
before my husband passed away I suffered a heavy
sense of affection on my heart. In Hosp. for 3 months
I think the Government can better help Carers by new blind in one eye and
also lost my husband. Stress played a

Recognizing the fact financially and added help that role
sends for carers who devoted their lives to
caring someone who otherwise would need support then
Government aid.

Thank you for taking my views into consideration as part of the Committee's Inquiry. I look forward to reviewing any recommendations you make to improve life for Carers in Australia.

Yours sincerely
