The Chairman,
The Treaties Committee,
Parliament House,
Canberra. A.C.T. 2600.

Dear Sir,

We are writing to convey our concern at the possibility of our Government ratifying a treaty which would give power to the International Criminal Court to enforce its decisions over judgments made by our own Australian Judiciary system.

We view such ratification as a significant diminution of our Country's sovereignty, with the possibility of some unacceptable outcomes.

B. Ford.
