The Committee on Treaties
CANBERRA. A.C.T. 2600.

Re International Court - Criminal.

We are totally opposed to the Federal Government signing Australia up to a Treaty that will subjugate us to a new International Criminal Court to be established in The Hague. The Government has shown its contempt of the Parliamentary system & the Australian people.

Because it would affect our military personnel and national sovereignty, we are totally opposed to ratification of this dangerous globalist statute.
