**Subject:** NO SHOALWATER BAY DESTRUCTION by Big Money War Criminals !

Parliament House  
 CANBERRA ACT 2600

Dear Parliamentary Secretary

**SUBMISSION** ..... 6 .....

We virulently oppose any use of a  
**pristine clean Nature ENVIRONMENT**  
 such as the **ShoalWater Bay** area in QLD  
 for the purpose of enhancing "**military activities**" that support the  
 World Petrochemical and Automotive industries and their offensive  
**War Efforts** in the Middle East and elsewhere.

**WAKE UP !**

**BOTH CYCLONE LARRY AND CYCLONE MONIKA WERE DELIBERATE !**

**(AS WAS Nature's Christmas Present CYCLONE TRACEY in 1974  
 at the tail end of the Big Money US / USSR / Vietnam / SE Asia War)**

**We MUST COMPLETELY OPPOSE ANY News World Order Military Activities in OZ  
 or face further ferocious Wrath of Nature !**

If the World Petrochemical and Automotive industries  
 or their military lackeys must stage "events" somewhere,  
 then let it be in a Giant Auto Wrecking Yard strewn  
 with leaking barrels of hazardous chemicals and other  
 "fruits of modern industrial *civilisation*"!

Sincerely,

Andy Eastman
