To the Committee Secretary.

Children have a right to grow up feeling
Secure and safe and they need protection
from vindictive mothers who make the
decision to cut their fathers out of their
lives for their own satisfaction without
the well being of their children in mind.
Since some people can see past their own
desires and wants, there needs to be a
law that looks after children's rights and
some fathers rights as well.

As it is now, the children not only have to
live without their fathers, they also have to learn
when they grow up, that their mothers never
had their best interests in her heart, just
hate and self satisfaction. Then they learn
they really were very unimportant to their
mother as well as the very people who speak
"in the best interest of the child".

I can be contacted ~~by phone or letter to Above Address~~ by
phone or letter to Above Address. I would be
only too happy to tell you of our experiences
of the last 11 mths.
