To the Secretary,
Joint Standing Committee on Treaties.

25-2-2001

Dear Sir,

I am writing this letter to state my concern at the considered ratification of the "1998 Statute for the International Criminal Court."

As I understand this would represent a serious assault on Australia's National Sovereignty and would destroy it.

Also the above Court would have the power to determine any cases, including crimes committed by Australians in Australia, which it judges Australian Courts are unable or unwilling to prosecute. This cannot be allowed to happen.

As a concerned citizen of Australia I state that I do not want the Australian Government to sign this Treaty.

Sincerely,

..... Submission No. 127

Wendy Norden.
