### SUBMISSION ON MULTICULTURALISM :

Multiculturalism was not an issue until Muslims began to migrate into Australia after 9/11.

It has been established to protect Muslims from criticism and has been used as a vehicle to prevent so-called "vilification". In at least two court cases in Australia, it has been

stated that a critical statement can be regarded as vilifying even though it is the truth.

Prior to the establishment of multiculturalism and its related " Political Correctness ", we had "Freedom of Speech" and Australia was noted for this.

But now we do not openly speak the truth about Islam because of the fear of physical violence in retaliation as seen in so many countries overseas.

The big question that needs to be faced is whether or not Muslims are able to assimilate.?

A study of the Koran makes it clear that :-

### TRUE MUSLIMS CANNOT ASSIMILATE INTO A DEMOCRACY

Because we have accepted into Australia a variety of races and religions which have successfully assimilated into our Democratic society, we have been slow to realise that the outstanding exception to this are the Muslim immigrants who remain aloof and largely unassimilated. They blame us and accuse us of hate due to our being racist and they persuade many politicians and journalists that racism is the problem.

**BUT THE REAL PROBLEM IS ISLAM AND THE KORAN.**

While Muslims accuse us of hate and intolerance in order to shame us, they are well aware of the Koran likening us to pigs and dogs. " Kill the Infidel (Non-Muslim) wherever you may find him." is the sentiment repeated in approximately sixty percent of the Koran. There is no love or even pity for the Infidel. This intolerance and hate by Muslims is virtually never mentioned in any discussion on the media yet it is that which makes Islam different from all other religions. We have been bluffed into silence.

Islam does not allow assimilation into a Democracy or any political system other than Sharia law.

Wherever Democracy exists in the Middle East, for example, the Islamists are doing their utmost to establish Sharia. It will be a miracle if the current uprisings in the ME result in Democracies. The aim of all true Muslim leaders is to take control of the World under a dictatorial Caliphate.

The majority of individual Muslims would not take it upon themselves to start a jihad to kill Infidels but the Koran makes it clear that the only certain way to Paradise is to die in a jihad. The reward in Paradise is said to be seventy two virgins. The only other way to Paradise is to completely obey all the rules laid down for every aspect of a Muslim's life - even to his toilet habits. The Koran demands that when the Muslim is ordered to rise and kill non-Muslims, he must obey or he will be regarded as an "apostate" and apostates are to be beheaded. Similarly, any Muslim who leaves Islam is an apostate and is to be beheaded. MUSLIMS ARE TRAPPED IN THEIR SYSTEM.

A female Muslim can marry only another Muslim. Her father or oldest brother must kill her if she disobeys. This is not because of her reputation but because the male members of the family are disgraced. The female Muslim has little value. Mohammed said : "Women are a field to be plowed."

In Muslim countries under Sharia law, non-Muslims have four options :

1. Convert to Islam.
2. Leave the country if allowed and if there is another country left outside of Muslim control.
3. Become a "Dhimmi" with almost no rights and having to pay a tax which has been known to be as much as 150% of the income. So a Dhimmi cannot last long but has to succumb eventually.
4. Defy the system and be beheaded.

It is predicted that there will be an 80% increase in the number of Muslims in Australia in 20 - 30 years. As Dandar (a Muslim leader) recently demanded : " We are a growing community, so where are the services we need ? " Many of them live on charity paid for by our taxpayers and they go on having 5 to 10 children per family while our birth rate is only 1.3 children per family. Many non-Muslim women would like to have more children but are accustomed to think in terms of "living within our means" and therefore feel they cannot afford more children. But no such thinking in Muslim ranks.

We desperately need politicians with courage to expose the threat to our civilization and to stem the Islamic invasion. A politician was recently heard to say that they were considering what to do about the expected flood of refugees from recent ME uprisings. Pity help us if they increase the flow of Muslim immigrants into Australia. Politicians are the only ones who can take action to stop the invasion because they are the only ones who can have security guards to protect them and their families and paid for by government security. Posterity

will reveal the heroes of this present hour.

One hero is Geert Wilders of Holland who is leader of the Freedom Party and has gained much support by his brave exposure of the Islamic invasion. Queen Beatrix has requested the leaders of the two bigger parties to take Wilders into their confidence on the Muslim problem. He has been hauled though the court on charges of stirring racial hatred but there is a possibility that his party may top the next election because of his stand for the truth and defiance of Political Correctness.

It is virtually impossible to expect Muslim immigrants to honestly swear their allegiance to Australia and to our democratic system because the Koran allows for "taqyya" which gives licence to lie in the cause of Islam.
